

Report of Development Application

Pursuant to Section 4.15 of the Environmental Planning and Assessment Act 1979

APPLICATION DETAILS

ApplicationNo:DA19/0480Council File No:D/2019/0480Date of Lodgement:12/09/2019Applicant:JM Moloney

1 Angela Rd

LAKE ALBERT NSW 2650 Proposal: New Dwelling and Shed

Development Cost: 480000 **Description of Modification:** N/A

Other Approvals: AA19/0523 - Part B4 (Sewer) and Part B5

(Stormwater) - Private

Determination Body & Reason: Delegation **Assessment Officer:** Bikash Pokharel

SITE DETAILS

Subject Land: 3 Lakesend Pl

LAKE ALBERT NSW 2650

Lot 50 DP 1235752

Owner: JM Moloney

REPORT

DESCRIPTION OF DEVELOPMENT

The applicant seeks consent for the construction of a single storey 4 bedroom dwelling with attached garage and 8m (I) x 5m (w) and 3.47m (h) shed to the rear of the property.

THE SITE & LOCALITY

Location -Located on the southern side of Lakesend Place approximately 40m west from the intersecting of Lakesend Place and Lakehaven Drive in Lake Albert.

Area - 1245.00m²

Occupation - Vacant land with no significant vegetation on site.

Constraints and restrictions - The subject site is burdened by 2.5m wide stormwater easement along the western boundary.

Surrounding character - Newly subdivided residential area characterized by single storey detached dwellings within the vicinity. Adjoining lots to east, east and west are currently vacant will no development application lodged or approved. The western lot has approval for a dwelling and shed under DA19/0480 and is near to completion.

Page 1 of 15

Document Set ID: 4860783 Version: 1, Version Date: 16/10/2019 A site visit was undertaken on 17/09/2019 by the assessing officer.

MATTERS FOR CONSIDERATION PURSUANT TO SECTION 4.15(1)

The development has been assessed in accordance with the matters for consideration under Section 4.15 of the Environmental Planning and Assessment act 1979, and having regard to those matters, the following issues have been identified for further consideration:

Section 4.15(1)(a)(i) - The provisions of any environmental planning instrument (EPI)

Wagga Wagga Local Environmental Plan 2010 (LEP 2010)

Wagga Wagga Local Environmental Plan 2010 (LEP 2010)

Zoning of land (cl 2.2): R5

The development is permissible in the zone (cl. 2.3(1))

The development is consistent with the following objectives of the zone (cl. 2.3(2)):

- To provide residential housing in a rural setting while preserving, and minimising impacts on, environmentally sensitive locations and scenic quality.
- To ensure that large residential lots do not hinder the proper and orderly development of urban areas in the future.
- To ensure that development in the area does not unreasonably increase the demand for public services or public facilities.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To ensure that the clearing of native vegetation is avoided or minimised as far as is practicable.

The development is compliant with the relevant provisions of the LEP 2010. No further discussion is required.

State Environmental Planning Policy No. 55

There is no indication that the site has previously been occupied by any use that could have led to contamination of the site. Furthermore, the land is not identified on Councils register of contaminated sites.

State Environmental Planning Policy (BASIX) 2004

A valid BASIX certificate (Certificate Number: 1039391S_02) has been lodged with the application and assessed as compliant.

Section 4.15(1)(a)(ii) - any proposed instrument that is or has been the subject of public consultation under this Act and that has been notified to the consent authority

There are a number of state environmental planning policies currently subject to review, including some which have involved consultation and notification. With the exception of the following, none of these are applicable to this application.

Page 2 of 15

Document Set ID: 4860783 Version: 1, Version Date: 16/10/2019

Remediation of Land SEPP and repeal of State Environmental Planning Policy 55

The draft SEPP will not impact on the assessment of this application under SEPP 55 with regard to the potential contamination of this site and its suitability for the proposed development.

Section 4.15(1)(a)(iii) - any development control plan

Wagga Wagga Development Control Plan 2010

The development is compliant with the relevant provisions of the DCP 2010. The following provisions have been identified for further discussion:

1.10 Notification of a Development Application

In accordance with the Council's advertising and notification provisions outlined in Section 1.10 of the WWDCP 2010. The application was not required to be notified.

Section 4.15(1)(a)(iiia) - any planning agreement that has been entered into under section 7.4, or any draft planning agreement that a developer has offered to enter into under section 7.4

No related planning agreement has been entered into under section 7.4.

Section 4.15(1)(a)(iv) - any matters prescribed by the regulations

There are no matters of relevance under clause 92 of the *Environmental Planning and Assessment Regulation 2000* that require further consideration.

Section 4.15(1)(b) - The likely impacts of that development, including environmental impacts on both the natural and built environments, and social and economic impacts in the locality

The likely impacts of the development have been considered and are deemed satisfactory. No further discussion is required.

Section 4.15(1)(c) - The suitability of the site for the development

Matters relating to the suitability of the site for this development have been considered and the site is deemed suitable for the development.

Section 4.15(1)(d) - any submissions made in accordance with the Act or the regulation

No submissions were received at the time of writing this report.

Section 4.15(1)(e) - the public interest

Taking into account the full range of matters for consideration under Section 4.15 of the Environmental Planning and Assessment 1979 (as discussed within this report) it is considered that approval of the application is not contrary to the public interest.

Other Legislative Requirements

Section 5AA and Part 7 of the *Biodiversity Conservation Act 2016* (Test for determining whether proposed development or activity likely to significantly affect threatened species or ecological communities, or their habitats)

The development is in a residential zone and not removing any significant vegetation; the development will have minimal impact and not impact on any threatened species in the vicinity. No further assessment is required under this section.

Council Policies

Policy 046 - Processing Development Applications lodged by Councillors, staff and individuals of which a conflict of interest may arise, or on Council owned land.

No declaration has been made that would require action under this policy.

Comments from Internal Referrals

Internal referrals undertaken - relevant conditions will be imposed.

Development Contributions

Contributions were paid at subdivision stage for a single dwelling on this block, therefore no further contributions are required.

Conclusion

The development is considered to be satisfactory based on the foregoing assessment. The proposal complies with the requirements of the Environmental Planning and Assessment Act 1979, the Building Code of Australia (Housing Provisions) and Councils Policies. No objections to the proposal were received.

Recommendation

That, pursuant to the provisions of Section 80 of the Environmental Planning and Assessment Act, 1979, it is recommended that Development Application No. DA19/0480 be **APPROVED** subject to the following conditions:

Conditions

Approved Plans and Documentation

1. The development must be carried out in accordance with the approved plans and specifications as follows.

Plan/Doc No.	Plan/Doc Title	Prepared by	Issue	Date
2018- 08/3	Site Plan and Erosion and Sediment Control	Rocket Drawing	-	3/10/2019
2018- 08/1	Floor Plan	Rocket Drawing	-	2/09/2019
2018- 08/1	Elevations (All) and Section A - A	Rocket Drawing	-	3/10/2019
232608	Shed Plans	Riv Steel Sheds and Garages	-	1/07/2019

1039391 S_02	BASIX Certificate	Rocket Drawing Services	-	3/09/2019
2018-	Statement of	Rocket Drawing	-	4/09/2019
08/1	Environmental Effects	Services		

The Development Application has been determined by the granting of consent subject to and as amended by the conditions of development consent specified below.

NOTE: Any modifications to the proposal shall be the subject of an application under Section 4.55 of the Environmental Planning

and Assessment Act, 1979.

REASON: It is in the public interest that work is carried out in accordance with the approved plans. Section 4.15(1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

Prior to release of Construction Certificate

2. Prior to the issue of Construction Certificate the applicant must lodge a bond with Council of:-

\$2000.00 for security deposit on the kerb and gutter and footpath

Plus a non-refundable administration fee as per Councils fees and charges.

- NOTE 1: The applicant currently has an ONGOING security bond lodged with Council bond number (BKG 0149). This ongoing bond will be attached to this development to act as a security deposit on the kerb and gutter and footpath. No further payment under this condition is required.
- NOTE 2: In lieu of payment, the applicant can with written authorisation from their builder, utilise an ongoing bond should their builder hold and ongoing bond.
- NOTE 3: All monetary conditions are reviewed annually, and may change on 1 July each year.
- NOTE 4: Works in the form of driveways, kerb and gutter and footpath may require you to obtain a Section 138 Roads Act 1993 approval. Please contact Councils Road Reserve Officer on 1300 292 442 prior to undertaking such works.
- NOTE 5: Council will accept a once off security deposit for the kerb and gutter and footpath for applicants who lodge multiple DA's with council. If the applicant has security deposits held by Council for kerb and gutter and footpath at the time of Construction Certificate application, then Council may waive the need for an additional bond to be paid.
- NOTE 6: The bond held on the kerb and gutter and footpath is fully refundable upon completion of all works and upon inspection by Council to ensure that any damage to Council infrastructure has been repaired. The bond will not be refunded in the event that damage done to Council's infrastructure is not repaired to the satisfaction of Council. All damage is to be repaired at the full cost of the applicant

REASON: It is in the public interest that such fees are paid in accordance with Council's Management Plan. Section 4.15(1)(e) of the Environmental Planning and Assessment Act 1979, as amended.

3. No part of the development, including cut, fill, or footings is to encroach the easement. Prior to the release of the Construction Certificate the applicant is required to submit plans that show that the footings address the angle of influence taking into account the depth of existing sewer and stormwater mains in the easement.

REASON: To ensure the integrity of infrastructure within the easement is retained. Section 4.15 (1) (c) and (e) of the Environmental Planning and Assessment Act 1979, as amended.

Prior to Commencement of Works

- 4. Prior to works commencing on site, toilet facilities must be provided, at or in the vicinity of the work site on which work involved in the erection or demolition of a building is being carried out, at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be:
 - a) a standard flushing toilet connected to a public sewer, or
 - b) if that is not practicable, an accredited sewage management facility approved by Council, or
 - c) if that is not practicable, any other sewage management facility approved by Council.
 - NOTE 1: The provision of toilet facilities in accordance with this condition must be completed before any other work is commenced and the toilet facility must not be removed without the prior written approval of Council.
 - NOTE 2: "Vicinity" in this condition is defined to mean within 50 metres of the subject building site.
 - NOTE 3: The toilet facilities are to comply with all WORK COVER NSW requirements.

REASON: To provide adequate sanitary facilities during the construction phase. Section 4.15(1)(b) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 5. A CONSTRUCTION CERTIFICATE must be obtained pursuant to Section 6.7 of the *Environmental Planning and Assessment Act 1979*, as amended from either Council or an accredited certifying authority certifying that the proposed works are in accordance with the Building Code of Australia PRIOR to any works commencing.
 - NOTE 1: No building, engineering, excavation work or food premises fitout must be carried out in relation to this development until the necessary Construction Certificate has been obtained.
 - NOTE 2: YOU MUST NOT COMMENCE WORK UNTIL YOU HAVE RECEIVED THE CONSTRUCTION CERTIFICATE, even if you made an application for a Construction Certificate at the same time as you lodged this Development Application.

NOTE 3: It is the responsibility of the applicant to ensure that the development complies with the provision of the Building Code of Australia in the case of building work and the applicable Council Engineering Standards in the case of subdivision works. This may entail alterations to the proposal so that it complies with these standards.

REASON: To ensure the design of the proposed work may be assessed in detail before construction commences and because it is in the public interest that the development complies with the appropriate construction standards. Section 4.15(1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

6. Prior to works commencing a container must be erected on site for the enclosure of all building rubbish and debris, including that which can be wind blown. The enclosure shall be approved by Council and be retained on site at all times prior to the disposal of rubbish at a licenced Waste Management Centre.

Materials and sheds or machinery to be used in association with the construction of the building must not be stored or stacked on Council's footpath, nature strip, reserve or roadway.

- NOTE 1: No building rubbish or debris must be placed, or be permitted to be placed on any adjoining public reserve, footway, road or private land.
- NOTE 2: Weighbridge certificates, receipts or dockets that clearly identify where waste has been deposited must be retained.

 Documentation must include quantities and nature of the waste. This documentation must be provided to Council prior to application for an Occupation Certificate for the development.
- NOTE 3: The suitable container for the storage of rubbish must be retained on site until an Occupation Certificate is issued for the development.

REASON: To ensure that the building site and adjoining public places are maintained in a clean and tidy condition so as not to interfere with the amenity of the area. Section 4.15(1)(b) and (e) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 7. Prior to the commencement of works erosion and sediment control measures are to be established and maintained to prevent silt and sediment escaping the site or producing erosion. This work must be carried out and maintained in accordance with Council's:
 - a) Development Control Plan 2010 (Section 2.6 and Appendix 2)
 - b) Erosion and Sediment Control Guidelines for Building Sites; and
 - c) Soils and Construction Volume 1, Managing Urban Stormwater

 Prior to commencement of works, a plan illustrating these measures shall be submitted to, and approved by, Council.
 - NOTE: All erosion and sediment control measures must be in place prior to earthworks commencing.

REASON: To ensure the impact of the work on the environment in terms of soil erosion and sedimentation is minimised. Section 4.15(1)(b) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 8. Prior to works commencing on site:
 - i) Council must be notified of any damage to kerb and gutter and footpath fronting the site. The absence of such notification shall indicate that no damage exists and the applicant shall be responsible for the repair of any damage to kerb and gutter or footpath fronting the site.
 - ii) Satisfactory protection for existing public infrastructure must be provided and maintained throughout the construction period.

REASON: It is in the public interest that the development works do not damage existing Council infrastructure and accordingly a record of existing conditions is required. Section 4.15(e) of the *Environmental Planning and Assessment Act* 1979.

- 9. Building work (within the meaning of the Home Building Act 1989) must not be carried out unless the Principal Certifying Authority for the development:
 - a) in the case of work done by a licensee under the Act:
 - i) has been informed in writing of the licensee's name and contractor license number, and
 - ii) is satisfied that the licensee has complied with the requirements of Part 6 of that Act, OR
 - b) in the case of work to be done by any other person:
 - i) has been informed in writing of the person's name and ownerbuilder permit number, or
 - ii) has been given a declaration, signed by the owner of the land, that states that the reasonable market cost of the labour and materials involved in the work is less than the amount prescribed for the purposes of the definition of owner-builder work in Section 29 of the Act.

and, is given appropriate information and declarations under paragraphs a) and b) whenever arrangements for the doing of the work are changed in such a manner as to render out of date any information or declaration previously given under either a) or b).

NOTE: A certificate issued by an approved insurer under Part 6 of the Home Building Act 1989 that states that the person is the holder of an insurance policy is sufficient evidence to satisfy this condition.

REASON: To ensure the development complies with the requirements of Clause 98 of the Environmental Planning and Assessment Regulations 2000, and Section 4.17(11) of the *Environmental Planning and Assessment Act 1979*, as amended.

10. Prior to works commencing, a sign must be erected in a prominent position on any work site on which work involved in the erection or demolition of a building is being carried out:

- a) stating that unauthorised entry to the site is prohibited, and
- b) showing the name of the person in charge of the work site and a telephone number at which that person may be contacted outside work hours
- c) the development consent or complying development consent number, the name and contact details of the Principal Certifying Authority.

Any sign must be removed when the work has been completed.

NOTE: This condition does not apply to:

- a) building work carried out inside an existing building, or
- b) building work carried out on premises that must be occupied continuously (both during and outside work hours) while the work is being carried out.

REASON: To ensure the development complies with the requirements imposed under Clause 98 of the Environmental Planning and Assessment Regulations 2000, as amended, and Section 4.17(11) of the *Environmental Planning and Assessment Act 1979*, as amended.

11. At least two (2) days prior to the commencement of any works, the attached 'Notice of Commencement of Building or Subdivision Works and Appointment of Principal Certifying Authority', must be submitted to Council.

REASON: Because it is in the public interest that Council receive notification in accordance with the provision of the *Environmental Planning and Assessment Act* 1979, as amended. Section 4.15(1)(e) of the *Environmental Planning and Assessment Act* 1979, as amended.

During works

12. If the Council is appointed as the Principal Certifying Authority the following inspections must be undertaken by Council and a satisfactory Inspection Report must be issued by Council for such works prior to any further works being undertaken in respect of the subject development. Inspection Stages for construction are listed in Column 1 and must be inspected by Council at the times specified in Column 2.

COLUMN 1	COLUMN 2
Footings	When the footings have been excavated
	and all steel reinforcement has been placed
	in position.
Slab	When reinforcement steel has been placed
	in position in any concrete slab, whether or
	not the slab is suspended, on the ground,
	or on fill.
Wall frame	When the frame has been erected and prior
	to sheeting and or brick veneer outer wall
	has been constructed and tied to the frame.
Roof frame	When external roof covering has been
	installed and prior to the installation of the
	ceiling lining and eaves soffit lining.

Wet areas	When waterproofing has been applied to all wet areas, prior to tiling or finishing of surface.
Drainage	When the stormwater and roof water drainage system has been completed.
Final	Required prior to occupation of the building

NOTE 1: A Final Occupation Certificate in relation to the building cannot be issued by Council until all Inspection Reports required by this condition have been issued by Council. Prior to or at the time of the application for Occupation Certificate the application for "Occupation Certificate" form attached to the Council issued Construction Certificate must be completed and submitted to Council with all required attachments - failure to submit the completed Occupation Certificate application form will result in an inability for Council to book and subsequently undertake occupation certificate inspection.

NOTE 2: The above Inspection Reports are required whether or not the work has been inspected by a Structural Engineer, a lending authority or any other person. If the Inspection Reports are not issued Council may refuse to issue a Building Certificate under Section 149A of the Environmental Planning and Assessment Act 1979, as amended.

NOTE 3: Submission of the bracing plan and the Truss and Frame
Certificate is required seven (7) working days before the frame
inspection.

REASON: It is in the public interest that critical stage inspections be issued for these components of the development in accordance with Section 162A of the *Environmental Planning and Assessment Regulations 2000* as amended.

13. The Builder must at all times maintain, on the job, a legible copy of the plans and specifications approved with the Construction Certificate.

REASON: It is in the public interest that a copy of the Construction Certificate plans are available, and Section 4.15(1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

14. All excavation and backfilling associated with the erection/demolition of the building must be properly guarded and protected to prevent them from being dangerous to life or property.

REASON: It is in the public interest that all building elements are able to withstand the combination of loads and other actions to which it may be subjected. Section 4.15(1)(b) and (e) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 15. The concrete slab floor shall be treated against termites in accordance with AS 3660-1 2000 Termite Management:
 - a) NON CHEMICAL where a non chemical treatment (physical barriers) is to be used the applicant shall submit details to Council prior to any work commencing.

- b) CHEMICAL RETICULATION where a chemical method of treatment is to be used by way of reticulation, details shall be provided to Council for approval prior to installation accompanied by a signed maintenance contract with a Pest Control Operator.
 - Applicants and owners are to ensure that an annual inspection is undertaken to determine need for treatment.
- c) Upon installation of the method of treatment, a Certificate shall be issued to Council by the licensed installer of the system certifying that the system installed is in accordance with AS 3660-1 and in accordance with any specific requirements of the Council.
- d) A durable notice must be permanently fixed to the building in the electricity meter box indicating:
 - i) The method of protection
 - ii) The date of installation of the system
 - iii) Where a chemical barrier is used, its life expectancy as listed on the National Registration Authority label.
 - iv) The need to maintain and inspect the system on a regular basis.

REASON: It is in the public interest that where appropriate termite management treatments are used in compliance with AS 3660.1.2000 Termite Management New Building Work. Section 4.15(1)(b) and (e) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 16. The permitted construction hours are Monday to Friday 7.00am to 6.00pm and Saturday 7.00am to 5.00pm, excepting public holidays. All reasonable steps must be taken to minimise dust generation during the demolition and/or construction process. Demolition and construction noise is to be managed in accordance with the Office of Environment and Heritage Guidelines.
 - REASON: To ensure building works do not have adverse effects on the amenity of the area. Section 4.15(1)(b) of the *Environmental Planning and Assessment Act* 1979. as amended.
- 17. All earthworks, filling, building, driveways or other works, must be designed and constructed (including stormwater drainage if necessary) so that at no time, will any ponding of stormwater occur on adjoining land as a result of this development.
 - REASON: To prevent the proposed development having a detrimental effect on the developments existing on the adjoining lands. Section 4.15(1)(b) and (e) of the *Environmental Planning and Assessment Act 1979*, as amended.

18. A Compliance Certificate for the plumbing and drainage work identified in Column 1 at the times specified in Column 2 must be obtained from Council.

COLUMN 1	COLUMN 2
Internal Sewer	When all internal plumbing and drainage
Drainage	work is installed and prior to
	concealment.
External Sewer	When all external plumbing and drainage
Drainage	work is installed and prior to
	concealment.
Stormwater Drainage	When all external stormwater drainage
	work is installed and prior to
	concealment.
Final	Prior to occupation of the building or
	structure.

REASON: It is in the public interest that plumbing work is certifying as complying with AS/NZS 3500.2015 and Plumbing Code of Australia.

19. All building work must be carried out in accordance with the requirements of the Building Code of Australia (as in force on the date the application for the relevant Construction Certificate or Complying Development Certificate was made).

REASON: To ensure the development complies with the requirements imposed under Clause 98 of the Environmental Planning and Assessment Regulations 2000, as amended, and Section 4.17(11) of the *Environmental Planning and Assessment Act 1979*, as amended.

Prior to release of Occupation Certificate / Prior to Operation

20. Prior to issue of an occupation certificate the building number must be displayed in a position clearly visible from the street in letters having a height of not less than 75 mm. The number must be visible against the background on which it is placed.

REASON: It is in the public interest that the building/property be easily identifiable. Section 4.15(1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

21. An Occupation Certificate, must be obtained pursuant to Section 6.9 of the *Environmental Planning and Assessment Act 1979*, from either Council or an accredited certifying authority, prior to occupation of the building.

In order to obtain this, the "Final Occupation Certificate" form must be completed and submitted to Council with all required attachments - failure to submit the completed Occupation Certificate Application form will result in an inability for Council to book and subsequently undertake Occupation Certificate inspection.

NOTE:

The issuing of an Occupation Certificate does not necessarily indicate that all conditions of development consent have been complied with. The applicant is responsible for ensuring that all conditions of development consent are complied with.

REASON: It is in the public interest that an Occupation Certificate be issued prior to occupation of the building. Section 4.15(1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

22. A final inspection must be carried out upon completion of plumbing and drainage work and prior to occupation of the development, prior to the issuing of a final plumbing certificate Council must be in possession of Notice of Works, Certificate of Compliance and Works as Executed Diagrams for the works. The works as Executed Diagram must be submitted in electronic format in either AutoCAD or PDF file in accordance with Council requirements.

All plumbing and drainage work must be carried out by a licensed plumber and drainer and to the requirements of the Plumbing and Drainage Act 2011.

NOTE: Additional fees for inspections at the Plumbing Interim Occupancy / Plumbing Occupation stage may apply. This will depend on the number of inspections completed at this stage of the work/s.

REASON: To ensure compliance with the relevant provisions of the *Plumbing and Drainage Act 2011* and Regulations.

- 23. Prior to the issue of an Occupation Certificate a Water Plumbing Certificate from Riverina Water County Council shall be submitted to Council.
 - NOTE 1: The applicant is to obtain a Plumbing Permit from Riverina Water County Council before any water supply/plumbing works commence and a Compliance Certificate upon completion of the works. Contact Riverina Water County Council's Plumbing Inspector on 6922 0618. Please be prepared to quote your Construction Certificate number.

REASON: To ensure that the water servicing requirements of the development have been approved by the relevant authority. Section 4.15(1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

24. The commitments listed in any relevant BASIX Certificate for this development must be fulfilled in accordance with the BASIX Certificate Report, Development Consent and the approved plans and specifications.

REASON: To ensure the development complies with the requirements imposed under Clause 97A of the Environmental Planning and Assessment Regulations 2000, as amended, and Section 4.17 (11) of the *Environmental Planning and Assessment Act 1979*, as amended.

General

- 25. Any earthworks (including any structural support or other related structure for the purposes of the development):
 - (a) must not cause a danger to life or property or damage to any adjoining building or structure on the lot or to any building or structure on any adjoining lot, and
 - (b) must not redirect the flow of any surface or ground water or cause sediment to be transported onto an adjoining property, and

- (c) retained material must have a gradient of at least 5%, and
- (d) must be constructed in accordance with the approved plans for such work(s).

REASON: It is in the public interest that all building elements are able to withstand the combination of loads and other actions to which it may be subjected. Section 4.15 (1)(b) and (e) of the Environmental Planning and Assessment Act 1979, as amended.

- 26. (1) For the purposes of Section 4.17 (11) of the *Environmental Planning* and Assessment Act 1979, it is a prescribed condition of the development consent that if the development involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
 - (a) protect and support the adjoining premises from possible damage from the excavation, and
 - (b) where necessary, underpin the adjoining premises to prevent any such damage.
 - (2) The condition referred to in subclause (1) does not apply if the person having the benefit of the development consent owns the adjoining land or the owner of the adjoining land has given consent in writing to that condition not applying.

REASON: To ensure the development complies with the requirements imposed under Clause 98E of the Environmental Planning and Assessment Regulations 2000, as amended, and Section 4.17 (11) of the *Environmental Planning and Assessment Act 1979*, as amended.

Activity Approval Conditions (Section 68)

27. The plumbing work/s listed must be inspected as indicated below in accordance with AS/NZS 3500 and Plumbing Code of Australia.

COLUMN 1	COLUMN 2	
Internal House Drainage	When all internal plumbing work is installed and prior to concealment.	
External House Drainage	When all external plumbing work is installed and prior to concealment.	
Stormwater Drainage	When all external stormwater drainage work is installed and prior to concealment.	
Final	Prior to occupation of the building.	

REASON: It is in the public interest that plumbing work is certifying as complying with AS/NZS 3500.2003 and Plumbing Code of Australia.

28. No works are to be undertaken on the site prior to the issue of a Construction Certificate or Complying Development Certificate. Details of the approved Construction Certificate or Complying Development Certificate are to be submitted with the required "Notice of Works" and approved by Council prior to the commencement of work.

REASON: Statutory requirement and Public interest.

29. Sewerage and stormwater drainage work must comply with AS3500 and the Plumbing Code of Australia except where otherwise provided in the Local Government Act 1993 or the Local Government (General) Regulation 2005. In this regard, it may be necessary for you to contact a Licensed Plumber and Drainer.

A copy of the document entitled - Contractor's Copy shall be provided to the nominated plumbing contractor prior to the commencement of works.

REASON: To ensure the activity approval complies with the requirements of Section 98 of the Local Government Act 1993 and Clause 16A of the Local Government (General) Regulation 2005.

30. Council requires a "Notice of Works" to be submitted and approved by Council prior to the commencement of work. A "Certificate of Compliance" and "Works as Executed Diagram" are to be submitted and approved by Council prior to the issue of a Final Plumbing Certificate. The Works as Executed Diagram must be submitted in electronic format in either AutoCAD or PDF File in accordance with Council/NSW Fair Trading requirements.

REASON: To ensure compliance with the relevant provisions of the Plumbing and Drainage Act 2011 and 2017 Regulations.
