

# Report of Development Application

## Pursuant to Section 4.15 of the Environmental Planning and Assessment Act 1979

### APPLICATION DETAILS

<b>Application No:</b>	DA20/0135
<b>Council File No:</b>	D/2020/0135
<b>Date of Lodgement:</b>	17/03/2020
<b>Applicant:</b>	SLL Lim 27 Bluett Cres TURVEY PARK NSW 2650
<b>Proposal:</b>	Alterations and additions to an existing dwelling and construction of detached garage
<b>Development Cost</b>	\$128500
<b>Description of Modification:</b>	N/A
<b>Other Approvals:</b>	Nil
<b>Determination Body &amp; Reason:</b>	Officer Delegation 7.39
<b>Assessment Officer:</b>	Buddhika Perera

### SITE DETAILS

<b>Subject Land:</b>	27 Bluett Cres TURVEY PARK NSW 2650 Lot 20 DP 35298
<b>Owner:</b>	SLL Lim

### REPORT

#### **DESCRIPTION OF DEVELOPMENT**

Demolition of part of the existing dwelling and alterations and additions including detached garage.

The proposed additions to the dwelling will be 10.7m<sup>2</sup> in extent and proposed outdoor area and detached garage are 33.2m<sup>2</sup> and 56.8m<sup>2</sup> respectively.

## **THE SITE & LOCALITY**

**Location:** 27 Bluett Crescent Turvey Park

**Area :** 891.60m<sup>2</sup>

**Occupations:** Existing single dwelling

### **Constraints and restrictions**

The site is encumbered by 2.5m wide sewer easement running across the property adjacent to north eastern corner and south western corner. The proposed works are located outside the easement.

## **MATTERS FOR CONSIDERATION PURSUANT TO SECTION 4.15(1)**

*The development has been assessed in accordance with the matters for consideration under Section 4.15 of the Environmental Planning and Assessment act 1979, and having regard to those matters, the following issues have been identified for further consideration:*

### **Section 4.15(1)(a)(i) - The provisions of any environmental planning instrument (EPI)**

#### **Wagga Wagga Local Environmental Plan 2010 (LEP 2010)**

Zoning of land (cl 2.2): R1 General Residential Zone.

The development is permissible in the zone (cl. 2.3(1))

The development is consistent with the following objectives of the zone (cl. 2.3(2)):

- To provide for the housing needs of the community.

The development is compliant with the relevant provisions of the LEP 2010. The following provisions have been identified for further discussion:

### **2.7 Demolitions requires Development Consent**

This clause of the WWLEP 2010 specifies that some type of developments may only be carried out with development consent. By including proposed demolition works to the application, the applicant has fulfilled this requirement.

Condition will be attached to the consent to ensure the demolition works will comply with AS2601-2001, the demolition of structures.

### **State Environmental Planning Policy No. 55**

There is no indication that the site has previously been occupied by any use that could have led to contamination of the site. Furthermore, the land is not identified on Councils register of contaminated sites.

## **State Environmental Planning Policy (BASIX) 2004**

A valid certificate (A 372123) has been lodged with the application and assessed as compliant.

### **Section 4.15(1)(a)(ii) - any proposed instrument that is or has been the subject of public consultation under this Act and that has been notified to the consent authority**

There are a number of state environmental planning policies currently subject to review, including some which have involved consultation and notification. With the exception of the following, none of these are applicable to this application.

### **Remediation of Land SEPP and repeal of State Environmental Planning Policy 55**

The draft SEPP will not impact on the assessment of this application under SEPP 55 with regard to the potential contamination of this site and its suitability for the proposed development.

### **Section 4.15(1)(a)(iii) - any development control plan**

#### **Wagga Wagga Development Control Plan 2010**

The development is compliant with the relevant provisions of the DCP 2010. The following provisions have been identified for further discussion:

#### **1.10 Notification of a Development Application**

In accordance with the Council's advertising and notification provisions outlined in Section 1.10 of the WWDCP the application was not required to be notified.

#### **9.2.2 Streetscape**

The proposal will not be inconsistent with the existing built form of the area where single dwellings with front gardens and single driveways are dominating the streetscape. The proposal including new entry, deck and front porch will improve the front facade of the dwelling and will positively contribute to the streetscape and neighbourhood character.

### **Section 4.15(1)(a)(iiia) - any planning agreement that has been entered into under section 7.4, or any draft planning agreement that a developer has offered to enter into under section 7.4**

No related planning agreement has been entered into under section 7.4.

### **Section 4.15(1)(a)(iv) - the regulation**

Matters prescribed by the Environmental Planning and Assessment Regulation 2000

have been satisfied, including the addition of prescribed conditions.

**Section 4.15(1)(b) - The likely impacts of that development, including environmental impacts on both the natural and built environments, and social and economic impacts in the locality**

The likely impacts of the development have been considered and are deemed satisfactory.

**Section 4.15(1)(c) - The suitability of the site for the development**

Matters relating to the suitability of the site for this development have been considered and the site is deemed suitable for the development.

**Section 4.15(1)(d) - any submissions made in accordance with this Act or the Regulations**

The application was not notified as such no submissions have been received at the time of this report.

**Section 4.15(1)(e) - the public interest**

It is considered that this application will not have a detrimental effect on the public interest.

**Other Legislative Requirements**

**Section 5AA and Part 7 of the *Biodiversity Conservation Act 2016* (Test for determining whether proposed development or activity likely to significantly affect threatened species or ecological communities, or their habitats)**

The development is in a residential zone and not removing any vegetation; the development will have minimal impact and not impact on any threatened species in the vicinity. No further assessment is required under this section.

**Council Policies**

**Policy 046** - Processing Development Applications lodged by Councillors, staff and individuals of which a conflict of interest may arise, or on Council owned land.

No declaration has been made that would require action under this policy.

**Comments from Internal Referrals**

The application was referred to subdivision section of the council and relevant conditions have been imposed accordingly.

**Development Contributions**

### **Section 7.11/Environmental Planning & Assessment Act**

Section 7.12 of the Environmental Planning and Assessment Act 1979 enable Council to levy 0.5% of the estimated construction cost as developer contributions, A Section 7.12 contribution of \$642.50 applies and will be put towards the provision of high quality and diverse public facilities to meet the expectations of the residents of the city.

#### **Calculation**

Construction cost (\$128500) X 0.5% = \$645.50

#### **CPI**

No CPI will be applicable if the payment made within the same financial year of this consent.

### **S64 Sewer**

The development will not generate additional impact on the carrying capacity of existing sewer infrastructure. Therefore, no S64 sewer contributions will apply.

### **S64 Stormwater**

The lot was created in 1923 and no section 64 contributions were previously paid for the lot. The property is located in DSP A area Urban West of Willan's Hill and stormwater base charge for 1 ET is \$3007.

The Stormwater charge is based on the additional hardstand area of the development and is calculated as follows: -

Existing hardstand area= dwelling (147m<sup>2</sup>) + shed (9m<sup>2</sup>) = 156m<sup>2</sup>

Proposed hard stand area (including the driveway extension) = 281m<sup>2</sup>  
Additional hardstand area = 281m<sup>2</sup>-156m<sup>2</sup>  
= **125m<sup>2</sup>**

#### **Calculation**

125/800 x 1/0.74 x 3007 = \$634.92

#### **CPI**

115.2/87.9 x 634.92 = **\$832.11**

### **Conclusion**

The development is considered to be satisfactory based on the foregoing assessment. The proposal complies with the requirements of the *Environmental Planning and Assessment Act 1979*, the Building Code of Australia (Housing Provisions) and Councils Policies. No objections to the proposal were received.

### **Recommendation**

It is recommended that application number DA20/0135 for Alterations and additions to an existing dwelling and construction of detached garage be approved, subject to the following conditions: -

## CONDITIONS

### A. SCHEDULE A – Reasons for Conditions

The conditions of this consent have been imposed for the following reasons:

- A.1 To ensure compliance with the terms of the Environmental Planning and Assessment Act 1979 and Regulation 2000.
- A.2 Having regard to Council's duties of consideration under Section 4.15 and 4.17 of the Act.
- A.3 To ensure an appropriate level of provision of amenities and services occurs within the City and to occupants of sites.
- A.4 To improve the amenity, safety and environmental quality of the locality.
- A.5 Having regard to environmental quality, the circumstances of the case and the public interest.
- A.6 Having regard to the Wagga Wagga Development Control Plan 2010.
- A.7 To help retain and enhance streetscape quality.
- A.8 Ensure compatibility with adjoining and neighbouring land uses and built form.
- A.9 To protect public interest, the environment and existing amenity of the locality.
- A.10 To minimise health risk to neighbouring residents and workers.

### B. SCHEDULE B – Deferred Commencement Conditions

N/A

### C. SCHEDULE C – Conditions

#### Approved Plans and Documentation

- C.1 The development must be carried out in accordance with the approved plans and specifications as follows.

Plan/DocNo.	Plan/Doc Title	Prepared by	Issue	Date
	Statement of Environmental Effects	ICONO Building Design		16/03/2020
20-03- A01	Site Plan	ICONO Building Design	3	16/03/2020
20-03- A02	Demolition Plan	ICONO Building Design	3	16/03/2020
20-03- A03	Floor Plan	ICONO Building Design	3	16/03/2020
20-03- A04	Elevation - sheet 1	ICONO Building Design	3	16/03/2020
20-03- A05	Elevation - sheet 2 & Sections	ICONO Building Design	3	16/03/2020
20-03- A06	Garage Floor Plan and Elevations	ICONO Building Design	3	16/03/2020
A372123	BASIX -Alterations and Additions	ICONO Building Design		16/03/2020

The Development Application has been determined by the granting of consent subject to and as amended by the conditions of development consent specified below.

NOTE: Any modifications to the proposal shall be the subject of an application under Section 4.55 of the Environmental Planning and Assessment Act, 1979.

### **Requirements before a Construction Certificate can be issued**

C.2 Pursuant to s7.12 of the Environmental Planning and Assessment Act 1979 and the Wagga Wagga Local Infrastructure Contributions Plan 2019-2034, a monetary contribution of \$645.50 must be paid to Council, prior to the issuing of the Construction Certificate. The monetary contribution payable under this condition will be indexed in accordance with Clause 3.2 of the Wagga Wagga Local Infrastructure Contributions Plan 2019-2034 from the endorsed date of this Development Consent until the date of payment.

NOTE 1: Clause 3.2 of the Wagga Wagga Local Infrastructure Contributions Plan 2019-2034 provides for Section 7.12 contributions to be indexed in accordance with annual movements in the March quarter Consumer Price Index (CPI) (All Groups Index) for Sydney as published by the Australian Bureau of Statistics.

NOTE 2: The monetary contribution identified above remains applicable if paid within the same financial year as the date of determination. If payment is to be made outside this period, you are advised to contact Council prior to payment being made to determine if CPI increases/decreases have occurred since the date of this consent.

NOTE 3: A copy of the Wagga Wagga Local Infrastructure Contributions Plan 2019-2034, is available for inspection at Council Chambers, corner Baylis and Morrow Streets, Wagga Wagga, or on Council's website.

C.3 Prior to the release of Construction Certificate, a compliance certificate under s306 of the Water Management Act 2000 must be obtained in respect of the development relating to water management works that may be required in connection with the development.

NOTE1: 'Water management work' is defined in s283 of the Water Management Act to mean a 'water supply work', 'drainage work', 'sewage work' or 'flood work'. These terms are defined in that Act.

NOTE 2: Riverina Water is responsible for issuing compliance certificates and imposing requirements relating to water supply works for development in the Council's area. An application for a compliance certificate must be made with Riverina Water. Additional fees and charges may be incurred by the proposed development - please contact Riverina Water to ascertain compliance certificate water supply related requirements. A copy of such a compliance certificate is required prior to release of Construction Certificate.

NOTE 3: The Council is responsible for issuing compliance certificates and imposing requirements relating to sewerage, drainage and flood works for development in its area.

- NOTE 4: Under s306 of the Water Management Act 2000, Riverina Water or the Council, as the case requires, may, as a precondition to the issuing of a compliance certificate, impose a requirement that a payment is made or works are carried out, or both, towards the provision of water supply, sewerage, drainage or flood works.
- NOTE 5: The Section 64 Sewer base figure is - N/A  
  
The Section 64 Sewer contribution (updated by the CPI/100.5) required to be paid is - N/A
- NOTE 6: The Section 64 Stormwater base figure is \$634.92  
  
The Section 64 Stormwater contribution (updated by the CPI 115.2/87.9) required to be paid is \$832.11
- NOTE 7: Section 64 contributions shall be indexed in accordance with CPI annually at the commencement of the financial year.
- NOTE 8: The figures outlined in this consent are based on the current rate of CPI. Please be advised that CPI changes on a regular basis and you are advised to contact Council prior to payments being made, to ensure no further CPI increases/decreases have occurred since the date of this consent.

### **Requirements before the commencement of any works**

- C.4 Prior to works commencing on site, toilet facilities must be provided, at or in the vicinity of the work site on which work involved in the erection or demolition of a building is being carried out, at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be:
- a) a standard flushing toilet connected to a public sewer, or
  - b) if that is not practicable, an accredited sewage management facility approved by Council, or
  - c) if that is not practicable, any other sewage management facility approved by Council.
- NOTE 1: The provision of toilet facilities in accordance with this condition must be completed before any other work is commenced and the toilet facility must not be removed without the prior written approval of Council.
- NOTE 2: "Vicinity" in this condition is defined to mean within 50 metres of the subject building site.
- NOTE 3: The toilet facilities are to comply with all WORK COVER NSW requirements.
- C.5 A CONSTRUCTION CERTIFICATE must be obtained pursuant to Section 6.7 of the Environmental Planning and Assessment Act 1979, as amended from either Council

or an accredited certifying authority certifying that the proposed works are in accordance with the Building Code of Australia PRIOR to any works commencing.

NOTE 1: No building, engineering, excavation work or food premises fitout must be carried out in relation to this development until the necessary Construction Certificate has been obtained.

NOTE 2: YOU MUST NOT COMMENCE WORK UNTIL YOU HAVE RECEIVED THE CONSTRUCTION CERTIFICATE, even if you made an application for a Construction Certificate at the same time as you lodged this Development Application.

NOTE 3: It is the responsibility of the applicant to ensure that the development complies with the provision of the Building Code of Australia in the case of building work and the applicable Council Engineering Standards in the case of subdivision works. This may entail alterations to the proposal so that it complies with these standards.

- C.6 Prior to works commencing a container must be erected on site for the enclosure of all building rubbish and debris, including that which can be wind blown. The enclosure shall be approved by Council and be retained on site at all times prior to the disposal of rubbish at a licenced Waste Management Centre.

Materials and sheds or machinery to be used in association with the construction of the building must not be stored or stacked on Council's footpath, nature strip, reserve or roadway.

NOTE 1: No building rubbish or debris must be placed, or be permitted to be placed on any adjoining public reserve, footway, road or private land.

NOTE 2: Weighbridge certificates, receipts or dockets that clearly identify where waste has been deposited must be retained. Documentation must include quantities and nature of the waste. This documentation must be provided to Council prior to application for an Occupation Certificate for the development.

NOTE 3: The suitable container for the storage of rubbish must be retained on site until an Occupation Certificate is issued for the development.

- C.7 Prior to the commencement of works erosion and sediment control measures are to be established and maintained to prevent silt and sediment escaping the site or producing erosion. This work must be carried out and maintained in accordance with Council's:-

- a) Development Control Plan 2010 (Section 2.6 and Appendix 2)
- b) Erosion and Sediment Control Guidelines for Building Sites; and
- c) Soils and Construction Volume 1, Managing Urban Stormwater

Prior to commencement of works, a plan illustrating these measures shall be submitted to, and approved by, Council.

NOTE: All erosion and sediment control measures must be in place prior to earthworks commencing.

- C.8 A Section 68 Approval must be obtained from Council prior to any sewer or stormwater work being carried out on the site.

The licensed plumber must submit to Council, at least two (2) days prior to the commencement of any plumbing and drainage works on site a "Notice of Works".

NOTE: A copy of the Notice of Works form can be found on Council's website.

### Requirements during construction or site works

- C.9 Vehicular access within the road reserve must be constructed to Council standards, at full cost to the developer, by a licensed Council approved contractor. A list of Contractors can be found on Council's website at- <<https://wagga.nsw.gov.au/city-of-wagga-wagga/engineering-services/traffic-and-transport/working-in-a-road-reserve-or-footpath>> Driveway design and grades shall comply with AS2890.1: 2004 (or as amended) and Council's Engineering Guidelines for Subdivisions and Developments.
- C.10 The Builder must at all times maintain, on the job, a legible copy of the plans and specifications approved with the Construction Certificate.
- C.11 All excavation and backfilling associated with the erection/demolition of the building must be properly guarded and protected to prevent them from being dangerous to life or property.
- C.12 The concrete slab floor shall be treated against termites in accordance with AS 3660-1 2000 Termite Management:
- a) NON CHEMICAL - where a non chemical treatment (physical barriers) is to be used the applicant shall submit details to Council prior to any work commencing.
  - b) CHEMICAL RETICULATION - where a chemical method of treatment is to be used by way of reticulation, details shall be provided to Council for approval prior to installation accompanied by a signed maintenance contract with a Pest Control Operator.

Applicants and owners are to ensure that an annual inspection is undertaken to determine need for treatment.

- c) Upon installation of the method of treatment, a Certificate shall be issued to Council by the licensed installer of the system certifying that the system installed is in accordance with AS 3660-1 and in accordance with any specific requirements of the Council.
- d) A durable notice must be permanently fixed to the building in the electricity meter box indicating:
  - i) The method of protection
  - ii) The date of installation of the system
  - iii) Where a chemical barrier is used, its life expectancy as listed on the National Registration Authority label.
  - iv) The need to maintain and inspect the system on a regular basis.

- C.13 The demolition must be carried out in accordance with the provisions of Australian Standard AS2601-2001: The Demolition of Structures.

Within fourteen (14) days of completion of demolition, the following information shall be submitted to Council for assessment and approval:

- a) an asbestos clearance certificate prepared by a competent person; and
- b) a signed statement verifying that demolition work and the recycling of materials was undertaken in accordance with any Waste Management Plan approved with this consent. In reviewing such documentation Council will require the provision of actual weighbridge receipts for the recycling/disposal of all materials.

NOTE 1: Developers are reminded that WorkCover requires that all plant and equipment used in demolition work must comply with the relevant Australian Standards and manufacturer specifications.

NOTE 2: Demolition works involving the removal and disposal of asbestos cement must only be undertaken by contractors who hold a current WorkCover "Demolition Licence" and a current WorkCover "Class 2 (Restricted) Asbestos Licence".

NOTE 3: Competent Person (as defined under Safe Removal of asbestos 2nd Edition [NOHSC: 2002 (2005)]) means a person possessing adequate qualifications, such as suitable training and sufficient knowledge, experience and skill, for the safe performance of the specific work.

NOTE 4: A licence may be required for some of the tasks described in the document entitled Safe Removal of Asbestos 2nd Edition as requiring a competent person.

- C.14 The permitted construction hours are Monday to Friday 7.00am to 6.00pm and Saturday 7.00am to 5.00pm, excepting public holidays. All reasonable steps must be taken to minimise dust generation during the demolition and/or construction process. Demolition and construction noise is to be managed in accordance with the Office of Environment and Heritage Guidelines.

- C.15 All roofed and paved areas must be drained and the water from those areas and from any other drainage conveyed to:

- a) the existing roof water drainage system,

in accordance with AS/NZS 3500.3.2003 'Stormwater Drainage'.

Stormwater disposal drains must be connected to all roof gutter downpipes within fourteen (14) days of installation of the downpipes and/or the construction of hard standing areas, as may be appropriate, to discharge roofwater to the approved method of disposal.

- C.16 All earthworks, filling, building, driveways or other works, must be designed and constructed (including stormwater drainage if necessary) so that at no time, will any ponding of stormwater occur on adjoining land as a result of this development.

- C.17 The developer is to maintain all adjoining public roads to the site in a clean and tidy state, free of excavated "spoil" material.
- C.18 A Compliance Certificate for the plumbing and drainage work identified in Column 1 at the times specified in Column 2 must be obtained from Council.

COLUMN 1	COLUMN 2
Internal Sewer Drainage	When all internal plumbing and drainage work is installed and prior to concealment.
External Sewer Drainage	When all external plumbing and drainage work is installed and prior to concealment.
Stormwater Drainage	When all external stormwater drainage work is installed and prior to concealment.
Final	Prior to occupation of the building or structure.

### Requirements prior to issue of an Occupation Certificate or prior to operation

- C.19 An Occupation Certificate, must be obtained pursuant to Section 6.9 of the Environmental Planning and Assessment Act 1979, from either Council or an accredited certifying authority, prior to occupation of the building.

In order to obtain this, the "Final Occupation Certificate" form must be completed and submitted to Council with all required attachments - failure to submit the completed Occupation Certificate Application form will result in an inability for Council to book and subsequently undertake Occupation Certificate inspection.

NOTE: The issuing of an Occupation Certificate does not necessarily indicate that all conditions of development consent have been complied with. The applicant is responsible for ensuring that all conditions of development consent are complied with.

- C.20 A final inspection must be carried out upon completion of plumbing and drainage work and prior to occupation of the development, prior to the issuing of a final plumbing certificate Council must be in possession of Notice of Works, Certificate of Compliance and Works as Executed Diagrams for the works. The works as Executed Diagram must be submitted in electronic format in either AutoCAD or PDF file in accordance with Council requirements.

All plumbing and drainage work must be carried out by a licensed plumber and drainer and to the requirements of the Plumbing and Drainage Act 2011.

NOTE: Additional fees for inspections at the Plumbing Interim Occupancy / Plumbing Occupation stage may apply. This will depend on the number of inspections completed at this stage of the work/s.

- C.21 Prior to the issue of an Occupation Certificate a Water Plumbing Certificate from Riverina Water County Council shall be submitted to Council.

NOTE 1: The applicant is to obtain a Plumbing Permit from Riverina Water County Council before any water supply/plumbing works commence and a Compliance Certificate upon completion of the works. Contact

Riverina Water County Council's Plumbing Inspector on 6922 0618.  
Please be prepared to quote your Construction Certificate number.

### General requirements

- C.22 Any earthworks (including any structural support or other related structure for the purposes of the development):
- (a) must not cause a danger to life or property or damage to any adjoining building or structure on the lot or to any building or structure on any adjoining lot, and
  - (b) must not redirect the flow of any surface or ground water or cause sediment to be transported onto an adjoining property, and
  - (c) retained material must have a gradient of at least 5%, and
  - (d) must be constructed in accordance with the approved plans for such work(s).
- C.23 Should asbestos material be found, it is to be handled, transported and disposed of in accordance with the legislative requirements and standards determined by NSW WorkCover. All weighbridge receipts must be provided to Wagga Wagga City Council, within 14 days of the completion of the demolition/removal.

NOTE 1: All asbestos material needs to be double wrapped in 200µm thick plastic and disposed of at an EPA licensed facility. In this regard it should be noted that Wagga Wagga City Council's Gregadoo Waste Facility is the only EPA licensed facility within the Local Government Area to accept asbestos material. Council's Waste Management Supervisor requires 24 hours notice prior to disposal of this material

NOTE 2: Demolition works involving the removal and disposal of asbestos cement must only be undertaken by contractors who hold a current WorkCover — Demolition Licence and a current WorkCover — Class 2 (Restricted) Asbestos Licence.

NOTE 3: Competent Person (as defined under Safe Removal of Asbestos 2nd Edition [NOHSC: 2002 (2005)]) means a person possessing adequate qualifications, such as suitable training and sufficient knowledge, experience and skill, for the safe performance of the specific work.

NOTE 4: A licence may be required for some of the tasks described in the document entitled Safe Removal of Asbestos 2nd Edition as requiring a competent person.

## D. SCHEDULE D – Activity Approval Conditions (Section 68)

N/A

## E. SCHEDULE E – Prescribed Conditions

Conditions under this schedule are prescribed conditions for the purposes of section 4.17 (11) of the Environmental Planning and assessment Act 1979.

- E.1 Fulfilment of BASIX commitments (clause 97A EP&A Reg 2000)

The commitments listed in any relevant BASIX Certificate for this development must be fulfilled in accordance with the BASIX Certificate Report, Development Consent and the approved plans and specifications.

**E.2 Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989 (clause 98 EP&A Reg 2000)**

- (1) For development that involves any building work, the work must be carried out in accordance with the requirements of the Building Code of Australia.
- (2) In the case of residential building work for which the Home Building Act 1989 requires there to be a contract of insurance in force in accordance with Part 6 of that Act, such a contract of insurance shall be in force before any building work authorised to be carried out by the consent commences.
- (3) For a temporary structure that is used as an entertainment venue, the temporary structure must comply with Part B1 and NSW Part H102 of Volume One of the Building Code of Australia.

**NOTE 1:** This condition does not apply:

- (a) to the extent to which an exemption is in force under clause 187 or 188 of the Environmental Planning and Assessment Regulation 2000 (the Regulation), subject to the terms of any condition or requirement referred to in clause 187(6) or 188(4) of the Regulation, or
- (b) to the erection of a temporary building, other than a temporary structure to which part (3) of this condition applies.

**NOTE 2:** In this condition, a reference to the Building Code of Australia is a reference to that Code as in force on the date the application is made for the relevant:

- (a) development consent, in the case of a temporary structure that is an entertainment venue, or
- (b) construction certificate, in every other case.

**NOTE 3:** There are no relevant provisions in the Building Code of Australia in respect of temporary structures that are not entertainment venues.

**E.3 Erection of signs (clause 98A EP&A Reg 2000)**

For development that involves any building work, subdivision work or demolition work, a sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:

- (a) showing the name, address and telephone number of the principal certifying authority for the work, and

- (b) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
- (c) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

NOTE 1: This condition does not apply in relation to building work, subdivision work or demolition work that is carried out inside an existing building that does not affect the external walls of the building.

NOTE 2: This condition does not apply in relation to Crown building work that is certified, in accordance with section 6.28 of the Environmental Planning and Assessment Act 1979, to comply with the technical provisions of the State's building laws.

NOTE 3: Principal certifying authorities and principal contractors must also ensure that signs required by this clause are erected and maintained.

#### E.4 Notification of Home Building Act 1989 requirements (clause 98B EP&A Reg 2000)

Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the following information:

- (a) in the case of work for which a principal contractor is required to be appointed:
  - i) the name and licence number of the principal contractor, and
  - ii) the name of the insurer by which the work is insured under Part 6 of that Act,
- (b) in the case of work to be done by an owner-builder:
  - i) the name of the owner-builder, and
  - ii) if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under this condition becomes out of date, further work must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the updated information.

NOTE: This condition does not apply in relation to Crown building work that is certified, in accordance with section 6.28 of the Environmental Planning and Assessment Act 1979, to comply with the technical provisions of the State's building laws.

#### E.5 Entertainment venues (clause 98C EP&A Reg 2000)

If the development involves the use of a building as an entertainment venue, the development shall comply with the requirements set out in Schedule 3A of the Environmental Planning and Assessment regulation 2000.

E.6 Maximum capacity signage (clause 98D EP&A Reg 2000)

For the following uses of a building: a sign must be displayed in a prominent position in the building stating the maximum number of persons permitted in the building if the development consent for the use contains a condition specifying the maximum number of persons permitted in the building:

- (a) entertainment venue,
- (b) function centre,
- (c) pub,
- (d) registered club,
- (e) restaurant.

NOTE: Words and expressions used in this condition have the same meanings as they have in the Standard Instrument.

E.7 Shoring and adequacy of adjoining property (clause 98E EP&A Reg 2000)

If the development involves an excavation that extends below the level of the base of the footings of a building, structure or work (including any structure or work within a road or rail corridor) on adjoining land, the person having the benefit of the development consent must, at the person's own expense:

- (a) protect and support the building, structure or work from possible damage from the excavation, and
- (b) where necessary, underpin the building, structure or work to prevent any such damage.

NOTE: This condition does not apply if the person having the benefit of the development consent owns the adjoining land or the owner of the adjoining land has given consent in writing to that condition not applying.
