

ATTACHMENT C (Development Application)

Statement of Environmental Effects (SEE)

A Statement of Environmental Effects (SEE) is required to accompany all development applications. This Statement of Environmental Effects template is designed to form an attachment to the Development Application. It can only be used for certain development types (see below).

1	Applicable Development Types
	Single Residential dwelling (single storey and in a residential zone only – excluding Conservation Area)
/	Residential Alterations or Additions (single storey only)
	Other Domestic Buildings and Structures (including swimming pool, sheds, carports, etc.)
	Strata Subdivision of existing buildings
	Minor works in Conservation Area (e.g. painting, cladding, plastering, re-roofing, changing materials, fittings such as doors, windows and screens, etc.)

Other development proposals must be accompanied by purpose written statements.

The SEE must address all impacts that are relevant to your proposal. **Appendix 3** of the **Development Application Preparation and Lodgement Guide** will assist you in ensuring that you have considered all of the potential impacts relevant to your proposal. Other issues not listed in Appendix 3 may also be relevant and should be included in the SEE. You are encouraged to expand upon the material provided in any way you perceive as relevant.

Where potential impacts are identified, please ensure that you provide relevant comments and information on the measures that are proposed in order to mitigate against those impacts. You may need to provide additional pages/documentation (etc.) as an attachment to this SEE.

□ I have provided supporting information on pages/documents attached to this SEE.

Failure to provide the requested items will delay processing of the development application and may result in the application being returned to you for completion or additional information requests being forwarded to you from Council.

Application	Details			
Applicant:				
Lot and DP N	lo.: LOT 1 DF	247907		
Street No.:	142	Street	East St	
Locality:	Cartwrights	Hill		40-10-10-10-10-10-10-10-10-10-10-10-10-10

Attachment C - Statement of Environmental Effects

Version 1.2 - June 2010

Attachment to DA No.	
Attachment to DA NO.	

Description of Development
(Should include where applicable a description of matters such as proposed buildings, proposed building materials, nominated colour scheme, nature of use, staging of the development details of any demolition and other works etc.) Proposed alterations & additions to existing residence to be matching brick veneer to front facade whilst all other external walls to be Cemintel "Edge" cladding over 90mm timber stud framing to NCC requirements. Tiled timber trussed hip roof, all to match existing colo Suspended timber flooring with enclosed sub-floor construction proposed for extension to the west (rear) and south (side). Proposed timber deck also to be constructed to the rear of extension. Proposed demolition of existing rear infilled verandah to make good for above proposed alterations & addition. Proposed addition to south to be 900mm minimum from boundary to match existing local neighbouring residences despite site zoned a R5. Neighbouring residences have been built in accordance to allowable practices of R1 zoning.
Description of Site
(Should include where applicable a description of the physical features of the site such as shape, slope, vegetation, any waterways. Also describe the current use/s on the site.)
Description:
Rectangular site of approximately 45m north-south boundaries by approximately 20m street frontage east boundary (East Street). The site has an approximate slope of 1 in 21 from east falling west. Existing trees of various sizes on-site with particular note to a row of large trees to the north boundary and one large central tree to remain for shading purposes.
What is the present use and previous uses of the site? Present and previous use as Class 1 private residential.
Is the development site subject to any of the following natural hazards:
☐ Bushfire Prone? ☐ Flooding or stormwater inundation?
Comments:
NIL
(Note if the site is identified as Bushfire Prone it will be necessary to address the Planning for Bushfire Protection Guidelines and in the case of subdivision the development will be integrated. For further information please consult the NSW Rural Fire Service web site www.rfs.nsw.gov.au).
What other constraints exist on the site? (e.g. vegetation, easements, sloping land, drainage lines, contamination, etc.)
NIL
What types of land use and development exist on surrounding land?
R5 despite local residences built in accordance to allowable practices of R1 zoning. Proposed addition to south to be 900mm minimum from boundary to match existing local neighbouring residences.

AU	
Attachment to DA No.	

Is your proposal permissible in the zone?	☑ Yes ☐ No
Is your proposal consistent with the zone objectives?	☑ Yes ☐ No
Is your proposal in accordance with the relevant development control pla	n? □ Yes ☑ No
f you answered "No" to any of the above, you should make an appointment to discuss your polanner or building surveyor before lodging a development application.	roposal with a town
Comments: Have spoken to Sam Robbins regarding consent for variation to side setbacks of R5 zones residence, and neighbouring residences, is that local constructions have built in accordant despite land zoned as R5. As such, proposed addition to south to be 900mm minimum from existing local neighbouring residences.	e to R1 zone rulings

APPLICANT DECLARATION

I/we declare to the best of my/our knowledge and belief, that the particulars stated on this document are correct in every detail and that the information required has been supplied. I/we acknowledge that the development application may be returned to me/us if information is found to be missing or inadequate.

Applicant's name/s (Printed)	Monique Hanny	
Applicant's signature/s		
Date	21-2-20.	

Legal Reference

Section 78A(9) of the Environmental Planning and Assessment Act 1979 states that the regulations may specify what is required to be submitted with a development application.

Section 50(1)(a) of the Environmental Planning and Assessment Regulation 2000 states that development applications must contain information and documents specified in schedule 1, part 1.

Schedule 1, part 1, subclause 2(1)(c) of the *Environmental Planning & Assessment Regulation 2000* requires the submission of Statements of Environmental Effects (SEEs) with all Development Applications (other than designated development)

Schedule 1, part 1, subclause 4 of the Environmental Planning & Assessment Regulation 2000 states that such SEEs must show:

- The environmental impacts of the development
- · How the impacts have been identified
- The steps to be taken to protect the environment or lessen the expected harm to the Environment
- Any matters required to be indicated by any guidelines issued by the Director-General.
