

Notice of Determination

of Development Application

Environmental Planning and Assessment Act 1979

Notice is hereby given of the determination by Council to the Modification of the above Development Application pursuant to Section 4.55 of the Environmental Planning & Assessment Act, 1979.

Modification Number: DA17/0533.01

Development Application Modified: DA17/0533

Type of Modification: s4.55(1A)

Applicant: Beedee Bags Pty Ltd
7 Norton St
EAST WAGGA WAGGA NSW 2650

Land to be Developed: 12-16 Norton St EAST WAGGA WAGGA NSW 2650
Lot B DP 159199, Lot 1 DP 580574

Description of Modification: Amendment to Floor Height and Associated Access Ramps, Alteration of Car Parking, Turning Areas, and Entry/Exit - Amend Conditions 1 and 12. Insert Condition 19A.

Determination: Approved

Description of Development: Additional Warehouse - Amendment to Floor Height and Associated Access Ramps, Alteration of Car Parking, Turning Areas, and Entry/Exit

Date of Determination of Modification: 25/06/2020

On behalf of the Council

Steven Cook
Senior Town Planner

Notice of Determination

Lapsing of the Consent

This modification does not alter the lapsing date of the Consent. It remains as that shown on the original determination.

Review of Determination

Where Council is the consent authority, Section 8.2 of the Environmental Planning and Assessment Act 1979, provides that the applicant may request the Council to review the determination. A request for review cannot be made after the period within which any appeal may be made to the Court has expired if no appeal was made. There is no right to review a determination of a complying development certificate, designated development, or Crown Development.

Right of Appeal

Where an applicant is dissatisfied with this decision, Section 8.7 of the Environmental Planning and Assessment Act 1979 provides a right to appeal the decision to the Land and Environment Court within a period of 6 months from the date the decision is notified or registered on the NSW planning portal or after the date of deemed refusal under section 8.11.

CONDITIONS OF CONSENT FOR APPLICATION NO. AS MODIFIED BY APPLICATION NO. DA17/0533.01

Approved Plans and Documentation

- The development must be carried out in accordance with the approved plans and specifications as follows.

The Development Application has been determined by the granting of consent subject to and as amended by the conditions of development consent specified below.

NOTE: Any modifications to the proposal shall be the subject of an application under Section 96 of the Environmental Planning and Assessment Act, 1979.

REASON: It is in the public interest that work is carried out in accordance with the approved plans. Section 79C(1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

Prior to release of Construction Certificate

2. **Prior to the issue of the Construction Certificate a revised site plan shall be submitted to the Principal Certifying Authority for approval that indicates;**
 - i) **The stormwater connecting to the existing stormwater system on site or directly to Council stormwater mains**
 - ii) **The finished paving levels demonstrating that the stormwater overland flow path is directed towards the street or an alternative appropriate point of discharge.**
 - iv) **A stormwater plan indicating pipe and pit levels, inverts and sizes. This plan shall also show existing and proposed surface contours within the site and along its boundaries with immediately adjacent properties, and shall define overland flow paths for storms which exceed a 1 in 10 year event.**

REASON: It is in the public interest that plumbing and drainage work is carried out in accordance with AS/NZS 3500 and the relevant provisions of the New South Wales Code of Plumbing Practice, Plumbing and Drainage. Section 79C(1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

Prior to Commencement of Works

3. **Prior to works commencing on site, toilet facilities must be provided, at or in the vicinity of the work site on which work involved in the erection or demolition of a building is being carried out, at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be:**
 - a) **a standard flushing toilet connected to a public sewer, or**

- b) if that is not practicable, an accredited sewage management facility approved by Council, or
- c) if that is not practicable, any other sewage management facility approved by Council.

NOTE 1: The provision of toilet facilities in accordance with this condition must be completed before any other work is commenced and the toilet facility must not be removed without the prior written approval of Council.

NOTE 2: “Vicinity” in this condition is defined to mean within 50 metres of the subject building site.

NOTE 3: The toilet facilities are to comply with all WORK COVER NSW requirements.

REASON: To provide adequate sanitary facilities during the construction phase. Section 79C(1)(b) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 4. A CONSTRUCTION CERTIFICATE pursuant to Section 109C of the *Environmental Planning and Assessment Act 1979*, as amended from either Council or an accredited certifying authority certifying that the proposed works are in accordance with the Building Code of Australia PRIOR to any works commencing.**

NOTE 1: No building, engineering, excavation work or food premises fitout must be carried out in relation to this development until the necessary Construction Certificate has been obtained.

NOTE 2: **YOU MUST NOT COMMENCE WORK UNTIL YOU HAVE RECEIVED THE CONSTRUCTION CERTIFICATE**, even if you made an application for a Construction Certificate at the same time as you lodged this Development Application.

NOTE 3: It is the responsibility of the applicant to ensure that the development complies with the provision of the Building Code of Australia in the case of building work and the applicable Council Engineering Standards in the case of subdivision works. This may entail alterations to the proposal so that it complies with these standards.

REASON: To ensure the design of the proposed work may be assessed in detail before construction commences and because it is in the public interest that the development complies with the appropriate construction standards. Section 79C(1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 5. Prior to works commencing a container must be erected on site for the enclosure of all building rubbish and debris, including that which can be wind blown. The enclosure shall be approved by Council and be retained on site at all times prior to the disposal of rubbish at a licenced Waste Management Centre.**

Materials and sheds or machinery to be used in association with the construction of the building must not be stored or stacked on Council's footpath, nature strip, reserve or roadway.

NOTE 1: No building rubbish or debris must be placed, or be permitted to be placed on any adjoining public reserve, footway, road or private land.

NOTE 2: Weighbridge certificates, receipts or dockets that clearly identify where waste has been deposited must be retained. Documentation must include quantities and nature of the waste. This documentation must be provided to Council prior to application for an Occupation Certificate for the development.

NOTE 3: The suitable container for the storage of rubbish must be retained on site until an Occupation Certificate is issued for the development.

REASON: To ensure that the building site and adjoining public places are maintained in a clean and tidy condition so as not to interfere with the amenity of the area. Section 79C (1)(b) and (e) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 6. Prior to the commencement of works erosion and sediment control measures are to be established and maintained to prevent silt and sediment escaping the site or producing erosion. This work must be carried out and maintained in accordance with Council's:-**

- a) Development Control Plan 2010 (Section 2.6 and Appendix 2)**
- b) Erosion and Sediment Control Guidelines for Building Sites; and**
- c) Soils and Construction Volume 1, Managing Urban Stormwater**

Prior to commencement of works, a plan illustrating these measures shall be submitted to, and approved by, Council.

NOTE: All erosion and sediment control measures must be in place prior to earthworks commencing.

REASON: To ensure the impact of the work on the environment in terms of soil erosion and sedimentation is minimised. Section 79C (1)(b) of the *Environmental*

Planning and Assessment Act 1979, as amended.

7. **A Section 68 Approval must be obtained by a Licensed Plumber and Drainer prior to any sewer or stormwater work being carried out on the site. Plans must be supplied for assessment and approval as part of the s68 application and must indicate that pipe and pit sizing meets the requirements of AS3500 and the Plumbing Code of Australia.**

Further, a final inspection must be carried out upon completion of plumbing and drainage work prior to occupation of the development.

The licensed plumber must submit to Council, at least two (2) days prior to the commencement of any plumbing and drainage works on site a “Notice of Works”.

NOTE: A copy of the Notice of Works form can be found on Council’s website.

REASON: It is in the public interest that plumbing work is carried out with the relevant approvals required under the Local Government Act 1993 and the Plumbing Code of Australia. Section 79C(1)(e) of the Environmental Planning and Assessment Act 1979, as amended.

8. **Prior to works commencing, a sign must be erected in a prominent position on any work site on which work involved in the erection or demolition of a building is being carried out:**
- a) **stating that unauthorised entry to the site is prohibited, and**
 - b) **showing the name of the person in charge of the work site and a telephone number at which that person may be contacted outside work hours**
 - c) **the development consent or complying development consent number, the name and contact details of the Principal Certifying Authority.**

Any sign must be removed when the work has been completed.

NOTE: This condition does not apply to:

- a) **building work carried out inside an existing building, or**
- b) **building work carried out on premises that must be occupied continuously (both during and outside work hours) while the work is being carried out.**

REASON: To ensure the development complies with the requirements imposed under Clause 98 of the Environmental Planning and Assessment Regulations 2000,

as amended, and Section 80A(11) of the *Environmental Planning and Assessment Act 1979*, as amended.

During works

9. **All earthworks, filling, building, driveways or other works, must be designed and constructed (including stormwater drainage if necessary) so that at no time, will any ponding of stormwater occur on adjoining land as a result of this development.**

REASON: To prevent the proposed development having a detrimental effect on the developments existing on the adjoining lands. Section 79C(1)(b) and (e) of the *Environmental Planning and Assessment Act 1979*, as amended.

10. **Any upgrades or alterations to existing Council infrastructure required as a result of the development shall be at the full cost of the applicant. Contact Council's Development Engineer to confirm what approval is required prior to commencing work on any Council infrastructure. Such work includes (but is not limited to) upgrade or connection to sewer or stormwater mains, and alteration of stormwater pits and sewer manhole levels.**

REASON: It is in the public interest that all costs associated with upgrading Public Infrastructure as a result of the development are borne by the applicant. Section 79C(1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

11. **The developer is to maintain all adjoining public roads to the site in a clean and tidy state, free of excavated "spoil" material.**

REASON: To ensure that building and development works do not have adverse impact on the amenity of the area. Section 79C(1)(b) of the *Environmental Planning and Assessment Act 1979*, as amended.

12. **Floor levels must be a minimum 225mm above existing ground level.**

NOTE 1: The applicant may undertake actions to ensure that approved residential development is built at 500mm above the 1:100 year flood event, subject to a separate development application approval.

REASON: To reduce the likelihood of damage from floodwaters. Section 79C(1)(c) of the *Environmental Planning and Assessment Act 1979*, as amended.

13. **A Compliance Certificate for the plumbing and drainage work identified in Column 1 at the times specified in Column 2 must be obtained from Council.**

COLUMN 1	COLUMN 2
Stormwater Drainage	When all external stormwater drainage work is installed and prior to

	concealment.
Final	Prior to occupation of the building or structure.

REASON: It is in the public interest that plumbing work is certifying as complying with AS/NZS 3500.2015 and Plumbing Code of Australia.

- 14. All building work must be carried out in accordance with the requirements of the Building Code of Australia (as in force on the date the application for the relevant Construction Certificate or Complying Development Certificate was made).**

REASON: To ensure the development complies with the requirements imposed under Clause 98 of the Environmental Planning and Assessment Regulations 2000, as amended, and Section 80A(11) of the *Environmental Planning and Assessment Act 1979*, as amended.

Prior to release of Occupation Certificate / Prior to Operation

- 15. The applicant must obtain an Occupation Certificate, pursuant to Section 109C of the *Environmental Planning and Assessment Act 1979*, from either Council or an accredited certifying authority, prior to occupation of the building.**

NOTE: The issuing of an Occupation Certificate does not necessarily indicate that all conditions of development consent have been complied with. The applicant is responsible for ensuring that all conditions of development consent are complied with.

REASON: It is in the public interest that an Occupation Certificate be issued prior to occupation of the building. Section 79C (1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 16. Prior to the issue of Occupation Certificate, the paving of all vehicular movement areas must be either a minimum of 150mm thick flexible pavement and sealed or 150mm thick reinforced concrete.**

REASON: To provide all weather vehicular movement and to minimise nuisances to adjoining development from noise and dust. Section 79C(1)(b) and (c) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 17. Prior to the issue of an Occupation Certificate, the owner must submit to Council a final Fire Safety Certificate stating that each essential fire safety measure specified in the current Fire Safety Schedule for the building to which the certificate relates:**

- a) has been assessed by a properly qualified person; and
- b) was found, when it was assessed, to be capable of performing to a standard not less than that required by the current Fire Safety Schedule

for the building.

Further, the assessment must be carried out within a period of three (3) months of the date on which the final Fire Safety certificate was issued. The owner of the building must forward a copy of the certificate to the New South Wales Fire Brigades and must prominently display a copy in the building.

NOTE: A final Fire Safety Certificate must be provided before a final Occupation Certificate can be issued for the building and must be provided if a Fire Safety Order is made in relation to the building premises.

REASON: To ensure the development complies with the requirements imposed under clause 153 of the Environmental Planning and Assessment Regulation 2000, as amended. Section 80A(11) of the *Environmental Planning and Assessment Act 1979*, as amended.

18. A final inspection must be carried out upon completion of plumbing and drainage work and prior to occupation of the development, prior to the issuing of a final plumbing certificate Council must be in possession of Notice of Works, Certificate of Compliance and Works as Executed Diagrams for the works. The works as Executed Diagram must be submitted in electronic format in either AutoCAD or PDF file in accordance with Council requirements.

All plumbing and drainage work must be carried out by a licensed plumber and drainer and to the requirements of the Plumbing and Drainage Act 2011.

NOTE: Additional fees for inspections at the Plumbing Interim Occupancy / Plumbing Occupation stage may apply. This will depend on the number of inspections completed at this stage of the work/s.

REASON: To ensure compliance with the relevant provisions of the *Plumbing and Drainage Act 2011* and Regulations.

19. Prior to the issue of Occupation Certificate, signs must be erected that clearly indicate to drivers of vehicles, both on and off the subject land, the driveway by which they are to enter or leave the subject land.

REASON: To ensure the entrance and exit function in the proper manner and to minimise the likelihood of accidents occurring. Section 79C(1)(b) of the *Environmental Planning and Assessment Act 1979*, as amended.

- 19A. A minimum of 13 car parking spaces must be made available on site at all times. The car park and all associated facilities must be laid out in accordance with Australian Standards AS2890.1.2004, AS2890.2 2002 and AS/NZS2890.6.2009. Prior to the release of the Occupation Certificate, the sealing of all parking areas, and all line marking associated with the car parking areas must be completed.**

REASON: To ensure impacts on traffic are minimised. Section 79C(1)(b) of the *Environmental Planning and Assessment Act 1979*, as amended.

General

- 20. The owner must submit to Council and the NSW Fire Brigade an Annual Fire Safety Statement, each 12 months, commencing within 12 months after the date on which the initial Interim/Final Fire Safety Certificate is issued or the use commencing, whichever is earlier.**

REASON: It is in the public interest that the development provides an Annual Fire Safety Statement and that the building is provided with an adequate level of fire protection. Section 79C (1)(e) of the *Environmental Planning and Assessment Act 1979*, as amended and Part 9 of the *Environmental Planning Regulation 2000*.
