

# Notice of Determination of Development Application

Environmental Planning and Assessment Act 1979

Notice is hereby given of the determination by Council to the above Development Application pursuant to Section 4.18(1) of the Environmental Planning & Assessment Act, 1979.

<b>Application Number:</b>	DA20/0115
<b>Applicant:</b>	Eugene Heffernan Heffernan Building & Construction Pty Limited 6 Kapooka Rd SAN ISIDORE NSW 2650
<b>Land to be Developed:</b>	248 - 250 Baylis St WAGGA WAGGA NSW 2650 Lot 1 DP 200148, Lot 2 DP 200148
<b>Description</b>	Awning Posts to Existing Awning and Replacement of Cladding
<b>Determination:</b>	Approved subject to Conditions
<b>Date of Determination:</b>	03/08/2020
<b>Consent to Operate from:</b>	03/08/2020
<b>Consent to Lapse on:</b>	03/08/2025
<b>Other Approvals:</b>	Nil

On behalf of the Council

Steven Cook  
Senior Town Planner

**Right of Appeal** - Where an applicant is dissatisfied with this determination, the applicant has the right to appeal the decision to the Land and Environment Court within a period of 12 months from the date the decision is notified or registered on the NSW planning portal

**Review of Determination** - The applicant may request the Council to review the determination. A determination cannot be reviewed after the period within which an appeal may be made to the Land and Environment Court has expired or, if an appeal has been made against the determination, after the Court has disposed of that appeal.

## CONDITIONS OF CONSENT FOR APPLICATION NO. DA20/0115

### A. SCHEDULE A – Reasons for Conditions

The conditions of this consent have been imposed for the following reasons:

- A.1 To ensure compliance with the terms of the Environmental Planning and Assessment Act 1979 and Regulation 2000.
- A.2 Having regard to Council's duties of consideration under Section 4.15 and 4.17 of the Act.
- A.3 To ensure an appropriate level of provision of amenities and services occurs within the City and to occupants of sites.
- A.4 To improve the amenity, safety and environmental quality of the locality.
- A.5 Having regard to environmental quality, the circumstances of the case and the public interest.
- A.6 Having regard to the Wagga Wagga Development Control Plan 2010.
- A.7 To help retain and enhance streetscape quality.
- A.8 Ensure compatibility with adjoining and neighbouring land uses and built form.
- A.9 To protect public interest, the environment and existing amenity of the locality.
- A.10 To minimise health risk to neighbouring residents and workers.

### B. SCHEDULE B – Deferred Commencement Conditions

N/A

### C. SCHEDULE C – Conditions

#### Approved Plans and Documentation

- C.1 The development must be carried out in accordance with the approved plans and specifications as follows.

Plan/Doc Title	Prepared by	Issue	Date
Statement of Environmental Effects	Eugene Heffernan / Design2 Consulting		Undated
Proposed Rectification Works Sht. 1	Design2 Consulting	D	5/5/20
Proposed Rectification Works Sht. 2	Design2 Consulting	B	22/5/20
Concrete Footing & Roof Beam Details (as amended by Council)	Design2 Consulting	C	7/4/20

The Development Application has been determined by the granting of consent subject to and as amended by the conditions of development consent specified below.

NOTE: Any modifications to the proposal shall be the subject of an application under Section 4.55 of the Environmental Planning and Assessment Act, 1979.

- C.2 Approval is not granted for the stormwater overflow over the Council footpath in the form of drip drainage. The stormwater and overflow shall be directed to legal point of discharge, being a kerb outlet or service spur.

**Requirements before a Construction Certificate can be issued**

- C.3 Prior to the issue of a Construction Certificate, awning plans, certified by a practicing Structural Engineer shall be submitted to Council, to the satisfaction of the General Manager or delegate.
- C.4 Prior to the issue of a Construction Certificate, amended plans showing disposal of stormwater in accordance with C.2 shall be submitted to Council, to the satisfaction of the General Manager or delegate.

**Requirements before the commencement of any works**

- C.5 Public liability insurance is to be taken out and maintained during the period this Consent operates in relation to the activity authorised by this Consent for an amount of \$20,000,000.00 noting the Council's interest as the owner of the public road over which the awning is located. Written evidence of such insurance is to be provided to the Council before any work authorised by this Consent commences and by not later than June 30 in each year during which this Consent operates or at any other time requested by the Council.
- C.6 No work authorised by this Consent may be carried out unless the Council has first approved arrangements to protect pedestrians, cyclists and motorists using the road reserve during the period in which such work will be carried out, being arrangements that do not unduly interfere with the use of the footpath or carriageway.
- C.7 If the work involved in the erection or demolition of a building or structure:

a) is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or

b) building involves the enclosure of a public place,

a hoarding or fence must be erected between the development site/works and the public place prior to works commencing on site.

All construction materials, waste, waste skips, machinery and contractors vehicles must be located and stored or parked within the site. No storage of materials, parking of construction machinery or contractor's vehicles will be permitted within the public space.

If necessary, an awning must be erected, sufficient to prevent any substance, from or in connection with the work, falling into the public place. Further the work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place.

NOTE 1: Any such hoarding, fence or awning must be removed when the work has been completed.

NOTE 2: Any external lighting required by this condition must be designed and positioned so that, at no time, will any light be cast upon any adjoining property.

NOTE 3: Prior to any hoarding being erected, the applicant must ensure that an application for a Hoarding Permit is submitted to and approved by Council.

C.8 A CONSTRUCTION CERTIFICATE must be obtained pursuant to Section 6.7 of the Environmental Planning and Assessment Act 1979, as amended from either Council or an accredited certifying authority certifying that the proposed works are in accordance with the Building Code of Australia PRIOR to any works commencing.

NOTE 1: No building, engineering, excavation work or food premises fitout must be carried out in relation to this development until the necessary Construction Certificate has been obtained.

NOTE 2: YOU MUST NOT COMMENCE WORK UNTIL YOU HAVE RECEIVED THE CONSTRUCTION CERTIFICATE, even if you made an application for a Construction Certificate at the same time as you lodged this Development Application.

NOTE 3: It is the responsibility of the applicant to ensure that the development complies with the provision of the Building Code of Australia in the case of building work and the applicable Council Engineering Standards in the case of subdivision works. This may entail alterations to the proposal so that it complies with these standards.

C.9 Prior to works commencing a container must be erected on site for the enclosure of all building rubbish and debris, including that which can be wind blown. The enclosure shall be approved by Council and be retained on site at all times prior to the disposal of rubbish at a licenced Waste Management Centre.

Materials and sheds or machinery to be used in association with the construction of the building must not be stored or stacked on Council's footpath, nature strip, reserve or roadway.

NOTE 1: No building rubbish or debris must be placed, or be permitted to be placed on any adjoining public reserve, footway, road or private land.

NOTE 2: Weighbridge certificates, receipts or dockets that clearly identify where waste has been deposited must be retained. Documentation must include quantities and nature of the waste. This documentation must be provided to Council prior to application for an Occupation Certificate for the development.

NOTE 3: The suitable container for the storage of rubbish must be retained on site until an Occupation Certificate is issued for the development.

C.10 Prior to the commencement of works erosion and sediment control measures are to be established and maintained to prevent silt and sediment escaping the site or producing erosion. This work must be carried out and maintained in accordance with Council's:-

- a) Development Control Plan 2010 (Section 2.6 and Appendix 2)
- b) Erosion and Sediment Control Guidelines for Building Sites; and

c) Soils and Construction Volume 1, Managing Urban Stormwater

Prior to commencement of works, a plan illustrating these measures shall be submitted to, and approved by, Council.

NOTE: All erosion and sediment control measures must be in place prior to earthworks commencing.

- C.11 The existing street trees fronting the property shall be retained and protected from the proposed development. These trees shall not be impacted upon in any way without the consent of Council's Supervisor of Tree Planning and Management.

A Tree Protection Zone (TPZ) shall be constructed for the street tree immediately adjacent to the development in accordance with Australian Standards - AS 4970-2009 Protection of Trees on Development Sites.

Construction of Tree Protection Zone's, shall be completed and inspected by Council's Supervisor of Tree Planning and Management, prior to the commencement of any site works. Contact can be made by phoning 1300 292442 during normal business hours.

Removal, relocation or disruption of the Tree Protection Zone fencing will be considered as a breach of this consent. TPZ fences shall remain in place until the end of construction.

- C.12 A Section 68 Approval must be obtained from Council prior to any stormwater work being carried out on the site.

The stormwater and overflow shall be directed to legal point of discharge, being a kerb outlet or service spur. Overflow over council footpath in the form of drip drainage is not permitted.

The licensed plumber must submit to Council, at least two (2) days prior to the commencement of any plumbing and drainage works on site a "Notice of Works".

NOTE: A copy of the Notice of Works form can be found on Council's website.

- C.13 Prior to works or activities commencing within the road reserve, approval under Section 138 of the Roads Act 1993 is required from Council.

A written application for Consent to Work on a Road Reserve is required to be submitted to and approved by Council. This shall include the preparation of a certified Temporary Traffic Management Plan (TTP) for the works.

It should be noted that work in the existing road reserve can only commence after the plan has been submitted and approved and then only in accordance with the submitted TTP. Please contact Council's Activities in Road Reserves Officer on 1300 292 442.

- C.14 No works are to take place to any services without prior written approval from the relevant authority.

**NOTE:** Underground assets may exist in the area that is subject to your application. In the interests of health and safety and in order to protect damage to third party assets please contact Dial before you dig at [www.1100.com.au](http://www.1100.com.au) <<http://www.1100.com.au>> or telephone on 1100 before excavating or erecting structures.

**Requirements during construction or site works**

- C.15 No construction materials, plant or equipment relating to work authorised by this consent are to be placed or stored within the road reserve during the period in which work authorised by this consent will be carried out without the prior written approval of the Council.
- C.16 The Builder must at all times maintain, on the job, a legible copy of the plans and specifications approved with the Construction Certificate.
- C.17 All excavation and backfilling associated with the erection/demolition of the building must be properly guarded and protected to prevent them from being dangerous to life or property.
- C.18 Any alterations or additions marked by Council on the approved plans and/or the specifications must be carried into effect.
- C.19 The demolition must be carried out in accordance with the provisions of Australian Standard AS2601-2001: The Demolition of Structures.

Within fourteen (14) days of completion of demolition, the following information shall be submitted to Council for assessment and approval:

- a) an asbestos clearance certificate prepared by a competent person; and
- b) a signed statement verifying that demolition work and the recycling of materials was undertaken in accordance with any Waste Management Plan approved with this consent. In reviewing such documentation Council will require the provision of actual weighbridge receipts for the recycling/disposal of all materials.

**NOTE 1:** Developers are reminded that WorkCover requires that all plant and equipment used in demolition work must comply with the relevant Australian Standards and manufacturer specifications.

**NOTE 2:** Demolition works involving the removal and disposal of asbestos cement must only be undertaken by contractors who hold a current WorkCover "Demolition Licence" and a current WorkCover "Class 2 (Restricted) Asbestos Licence".

**NOTE 3:** Competent Person (as defined under Safe Removal of asbestos 2nd Edition [NOHSC: 2002 (2005)]) means a person possessing adequate qualifications, such as suitable training and sufficient knowledge, experience and skill, for the safe performance of the specific work.

**NOTE 4:** A licence may be required for some of the tasks described in the document entitled Safe Removal of Asbestos 2nd Edition as requiring a competent person.

- C.20 The permitted construction hours are Monday to Friday 7.00am to 6.00pm and Saturday 7.00am to 5.00pm, excepting public holidays. All reasonable steps must be taken to minimise dust generation during the demolition and/or construction process. Demolition and construction noise is to be managed in accordance with the Office of Environment and Heritage Guidelines.
- C.21 All street furniture, landscaping, and plaques shall be protected during works from any damage.
- C.22 A Compliance Certificate for the plumbing and drainage work identified in Column 1 at the times specified in Column 2 must be obtained from Council.

COLUMN 1	COLUMN 2
Stormwater Drainage	When all external stormwater drainage work is installed and prior to concealment.
Final	Prior to occupation of the building or structure.

### **Requirements prior to issue of an Occupation Certificate or prior to operation**

- C.23 An Occupation Certificate, must be obtained pursuant to Section 6.9 of the Environmental Planning and Assessment Act 1979, from either Council or an accredited certifying authority, prior to occupation of the building.

In order to obtain this, the "Final Occupation Certificate" form must be completed and submitted to Council with all required attachments - failure to submit the completed Occupation Certificate Application form will result in an inability for Council to book and subsequently undertake Occupation Certificate inspection.

NOTE: The issuing of an Occupation Certificate does not necessarily indicate that all conditions of development consent have been complied with. The applicant is responsible for ensuring that all conditions of development consent are complied with.

- C.24 A final inspection must be carried out upon completion of plumbing and drainage work and prior to occupation of the development, prior to the issuing of a final plumbing certificate Council must be in possession of Notice of Works, Certificate of Compliance and Works as Executed Diagrams for the works. The works as Executed Diagram must be submitted in electronic format in either AutoCAD or PDF file in accordance with Council requirements.

All plumbing and drainage work must be carried out by a licensed plumber and drainer and to the requirements of the Plumbing and Drainage Act 2011.

NOTE: Additional fees for inspections at the Plumbing Interim Occupancy / Plumbing Occupation stage may apply. This will depend on the number of inspections completed at this stage of the work/s.

### **General requirements**

- C.25 Should asbestos material be found, it is to be handled, transported and disposed of in accordance with the legislative requirements and standards determined by NSW WorkCover. All weighbridge receipts must be provided to Wagga Wagga City Council, within 14 days of the completion of the demolition/removal.

NOTE 1: All asbestos material needs to be double wrapped in 200µm thick plastic and disposed of at an EPA licensed facility. In this regard it

should be noted that Wagga Wagga City Council's Gregadoo Waste Facility is the only EPA licensed facility within the Local Government Area to accept asbestos material. Council's Waste Management Supervisor requires 24 hours notice prior to disposal of this material

- NOTE 2: Demolition works involving the removal and disposal of asbestos cement must only be undertaken by contractors who hold a current WorkCover — Demolition Licence and a current WorkCover — Class 2 (Restricted) Asbestos Licence.
- NOTE 3: Competent Person (as defined under Safe Removal of Asbestos 2nd Edition [NOHSC: 2002 (2005)]) means a person possessing adequate qualifications, such as suitable training and sufficient knowledge, experience and skill, for the safe performance of the specific work.
- NOTE 4: A licence may be required for some of the tasks described in the document entitled Safe Removal of Asbestos 2nd Edition as requiring a competent person.

#### **D. SCHEDULE D – Activity Approval Conditions (Section 68)**

N/A

#### **E. SCHEDULE E – Prescribed Conditions**

Conditions under this schedule are prescribed conditions for the purposes of section 4.17 (11) of the Environmental Planning and assessment Act 1979.

##### **E.1 Fulfilment of BASIX commitments (clause 97A EP&A Reg 2000)**

The commitments listed in any relevant BASIX Certificate for this development must be fulfilled in accordance with the BASIX Certificate Report, Development Consent and the approved plans and specifications.

##### **E.2 Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989 (clause 98 EP&A Reg 2000)**

- (1) For development that involves any building work, the work must be carried out in accordance with the requirements of the Building Code of Australia.
- (2) In the case of residential building work for which the Home Building Act 1989 requires there to be a contract of insurance in force in accordance with Part 6 of that Act, such a contract of insurance shall be in force before any building work authorised to be carried out by the consent commences.
- (3) For a temporary structure that is used as an entertainment venue, the temporary structure must comply with Part B1 and NSW Part H102 of Volume One of the Building Code of Australia.

NOTE 1: This condition does not apply:

- (a) to the extent to which an exemption is in force under clause 187 or 188 of the Environmental Planning and Assessment Regulation 2000 (the Regulation), subject to the terms of any condition or requirement referred to in clause 187(6) or 188(4) of the Regulation, or
- (b) to the erection of a temporary building, other than a temporary structure to which part (3) of this condition applies.

NOTE 2: In this condition, a reference to the Building Code of Australia is a reference to that Code as in force on the date the application is made for the relevant:

- (a) development consent, in the case of a temporary structure that is an entertainment venue, or
- (b) construction certificate, in every other case.

NOTE 3: There are no relevant provisions in the Building Code of Australia in respect of temporary structures that are not entertainment venues.

### E.3 Erection of signs (clause 98A EP&A Reg 2000)

For development that involves any building work, subdivision work or demolition work, a sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:

- (a) showing the name, address and telephone number of the principal certifying authority for the work, and
- (b) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
- (c) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

NOTE 1: This condition does not apply in relation to building work, subdivision work or demolition work that is carried out inside an existing building that does not affect the external walls of the building.

NOTE 2: This condition does not apply in relation to Crown building work that is certified, in accordance with section 6.28 of the Environmental Planning and Assessment Act 1979, to comply with the technical provisions of the State's building laws.

NOTE 3: Principal certifying authorities and principal contractors must also ensure that signs required by this clause are erected and maintained.

### E.4 Notification of Home Building Act 1989 requirements (clause 98B EP&A Reg 2000)

Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the following information:

- (a) in the case of work for which a principal contractor is required to be appointed:
  - i) the name and licence number of the principal contractor, and
  - ii) the name of the insurer by which the work is insured under Part 6 of that Act,
- (b) in the case of work to be done by an owner-builder:
  - i) the name of the owner-builder, and
  - ii) if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under this condition becomes out of date, further work must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the updated information.

**NOTE:** This condition does not apply in relation to Crown building work that is certified, in accordance with section 6.28 of the Environmental Planning and Assessment Act 1979, to comply with the technical provisions of the State's building laws.

**E.5 Entertainment venues (clause 98C EP&A Reg 2000)**

If the development involves the use of a building as an entertainment venue, the development shall comply with the requirements set out in Schedule 3A of the Environmental Planning and Assessment regulation 2000.

**E.6 Maximum capacity signage (clause 98D EP&A Reg 2000)**

For the following uses of a building: a sign must be displayed in a prominent position in the building stating the maximum number of persons permitted in the building if the development consent for the use contains a condition specifying the maximum number of persons permitted in the building:

- (a) entertainment venue,
- (b) function centre,
- (c) pub,
- (d) registered club,
- (e) restaurant.

**NOTE:** Words and expressions used in this condition have the same meanings as they have in the Standard Instrument.

**E.7 Shoring and adequacy of adjoining property (clause 98E EP&A Reg 2000)**

If the development involves an excavation that extends below the level of the base of the footings of a building, structure or work (including any structure or work within a road or rail corridor) on adjoining land, the person having the benefit of the development consent must, at the person's own expense:

- (a) protect and support the building, structure or work from possible damage from the excavation, and
- (b) where necessary, underpin the building, structure or work to prevent any such damage.

NOTE: This condition does not apply if the person having the benefit of the development consent owns the adjoining land or the owner of the adjoining land has given consent in writing to that condition not applying.

**F. SCHEDULE F – General Terms of Approval (Integrated Development)**

N/A
