## Required PCA Site Signage

From the time work is first started on the site until completion, certain signage, including identification of the PCA, must be displayed in a position visible from the street (clauses 98A and 136B of the EP&A Reg 2000). There are fines for not having the correct signage displayed. These signs are placed on site by a Council Officer. They may also be obtained from Council's Development Assessment and Building Certification Team on 1300 292 442 and we will forward one to you.

Please apply in the NSW Planning Portal to Appoint Wagga Wagga City Council as your Principal Certifying Authority.

Please see below Applicants Guide to Lodging an Application to Appoint a Principal Certifying Authority

<u>https://shared-drupal-s3fs.s3.ap-southeast-2.amazonaws.com/master-</u> test/fapub\_pdf/QRGs/Submitting+an+Application+to+Appoint+a+Principal+Certifier.pdf

### Prior To Booking Inspections

We require the following documentation **BEFORE** you book the relevant inspection. An inspection request may not be accepted, or the inspection carried out, if these details have not been received:-

- Wall bracing details layout plan, including bracing unit types.
- Engineered floor joists layout plan, member sizes, spacings and method of connection.
- Roof trusses layout plan, identification sections, member sizes and spacings.

### **Booking Inspections**

We carry out inspections every weekday (except public holidays). To make an inspection booking, or to confirm requirements, please contact Development Services on 1300 292 442.

Clause 163 of the EP&A Regulation requires that the principal contractor, or the owner builder, must give the PCA **at least 48 hours notice** before each required inspection. Whilst we always endeavour to meet your inspection needs, this may not be achievable with less than 48 hours notice, and is also subject to availability.

Additional inspections due to staging of building works, variations in the construction sequence and reinspections as a result of incomplete or unsatisfactory works, may attract an additional inspection fee. Where the number of inspections requested exceeds the number of inspections paid for, you will be required to make payment for future inspections at current rates.

## To avoid a potential reinspection and subsequent fees, it is strongly recommended that the principal contractor or owner builder ensures all works are completed and compliant prior to booking an inspection.

Please note: Legislation requires that the PCA is to carry out **all** nominated and critical stage inspections (as *listed in the attached approval*). An Occupation Certificate might not be issued and the building may not be able to be used or occupied where this does not occur.

### Occupation Certificate

Legislation requires that an Occupation Certificate be issued on finalisation of work and prior to use. Only the PCA can issue the Occupation Certificate. The owner/person benefitting from the consent is required to complete and return to Council via the NSW Planning Portal an application form for the Occupation Certificate. This can be downloaded from our website www.wagga.nsw.gov.au.

To apply for an Occupation Certificate please complete in the NSW Planning Portal an Application for Final Occupation Certificate

Please see below Applicants Guide to Lodging an Application for Final Occupation Certificate

https://shared-drupal-s3fs.s3.ap-southeast-2.amazonaws.com/mastertest/fapub\_pdf/QRGs/Submitting+an+Application+for+an+Occupation+Certificate.pdf

#### NSW Planning Portal Portal fees

In accordance with the <u>NSW Environmental Planning and Assessment Regulation 2000</u>, applicants are required to pay a digital application processing fee for certain planning applications and certificates.
