

Statement of Environmental Effects (SEE)

ATTACHMENT C

(Development Application)

A Statement of Environmental Effects (SEE) is required to accompany all development applications. This Statement of Environmental Effects template is designed to form an attachment to the Development Application. It can only be used for certain development types (see below).

\checkmark	Applicable Development Types
	Single Residential dwelling (single storey and in a residential zone only – excluding Conservation Area)
	Residential Alterations or Additions (single storey only)
	Other Domestic Buildings and Structures (including swimming pool, sheds, carports, etc.)
	Strata Subdivision of existing buildings
	Minor works in Conservation Area (e.g. painting, cladding, plastering, re-roofing, changing materials, fittings such as doors, windows and screens, etc.)

Other development proposals must be accompanied by purpose written statements.

The SEE must address all impacts that are relevant to your proposal. **Appendix 3** of the **Development Application Preparation and Lodgement Guide** will assist you in ensuring that you have considered all of the potential impacts relevant to your proposal. Other issues not listed in Appendix 3 may also be relevant and should be included in the SEE. You are encouraged to expand upon the material provided in any way you perceive as relevant.

Where potential impacts are identified, please ensure that you provide relevant comments and information on the measures that are proposed in order to mitigate against those impacts. You may need to provide additional pages/documentation (etc.) as an attachment to this SEE.

I have provided supporting information on pages/documents attached to this SEE.

Failure to provide the requested items will delay processing of the development application and may result in the application being returned to you for completion or additional information requests being forwarded to you from Council.

Attachment C - Statement of Environmental Effects

Description of Development
(Should include where applicable a description of matters such as proposed buildings, proposed building materials, nominated colour scheme, nature of use, staging of the development details of any demolition and other works etc.)
Description of Site
(Should include where applicable a description of the physical features of the site such as shape, slope, vegetation, any waterways. Also describe the current use/s on the site.)
Description:
What is the present use and previous uses of the site?
 Is the development site subject to any of the following natural hazards: Bushfire Prone? Flooding or stormwater inundation?
Comments:
(Note if the site is identified as Bushfire Prone it will be necessary to address the Planning for Bushfire Protection Guidelines and in the case of subdivision the development will be integrated. For further information please consult the NSW Rural Fire Service web site www.rfs.nsw.gov.au).
What other constraints exist on the site? (e.g. vegetation, easements, sloping land, drainage lines, contamination, etc.)
What types of land use and development exist on surrounding land?

Version 1.3 – October 2022

Planning Controls		
Is your proposal permissible in the zone?	Yes	No
Is your proposal consistent with the zone objectives?	Yes	No
Is your proposal in accordance with the relevant development control plan?	Yes	No
If you answered "No" to any of the above, you should make an appointment to discuss your proposa planner or building surveyor before lodging a development application.	l with a town	ı
Comments:		
Context and Setting		
Will the development be:		
Visually prominent in the surrounding area?	Yes	No
Inconsistent with the existing streetscape?	Yes	No
Out of character with the surrounding area?	Yes	No
Inconsistent with surrounding land uses?	Yes	No
Comments:		
Privacy, Views and Overshadowing		
Will the development result in any privacy issues between adjoining		
Properties as a result of the placement of windows, decks, pergolas, private open space, etc.?	Yes	No
Will the development result in the overshadowing of adjoining		
properties resulting in an adverse impact on solar access?	Yes	No
Will the development result in any acoustic issues between adjoining proportion as a result of the placement of active use outdoor group.		
properties as a result of the placement of active use outdoor areas, vehicular movement areas, air conditioners and pumps, bedroom and		
living room windows, etc.?	Yes	No
Will the development impact on views enjoyed from adjoining or nearby properties and public places such as parks roads and footpaths?	Yes	No

Version 1.3 – October 2022

Will the development increase local traffic movements / volumes? If yes, by how much? Are additional access points to a road network required? Has vehicle manoeuvring and onsite parking been addressed in the design? Is power, water, electricity sewer and telecommunication services readily available to the site? Comments: Environmental Impacts Is the development likely to result in any form of air pollution (smoke, dust, odour etc.)? Does the development have the potential to result in any form of water pollution (eg. sediment run-off)? Will the development have any noise impacts above background noise levels (eg. Swimming pool pumps)? Does the development involve any significant excavation or filling? Could the development cause erosion or sediment run-off (including during the construction period)? Is there any likelihood in the development resulting in soil contamination? Is the development considered to be environmentally sustainable (including provision of BASIX certificate where required)?

Flora and Fauna Impacts			
(For further information on threatened species, see www.threatenedspecies.enviror	nment.nsw.gov.au)	
Will the development result in the removal of any native vegetation from the site?		Yes	No
 Is the development likely to have any impact on threatened spec or native habitat? 	ies	Yes	No
(If the answer is yes to either of the above questions it may be necessary to have a to assess the impact on threatened species – applicants are encouraged to consult		t test compl	eted
Comments:			
Waste and Stormwater Disposal			
How will effluent be disposed of?	To Sewer	Onsite	
Will liquid trade waste be discharged to Council's sewer?		Yes	No
Will the development result in any hazardous waste or other waste disposal issue?		Yes	No
How will stormwater (from roof and hard standing) be disposed of	of:		
Council Drainage System Other (if other provide details	s)		
Does the development propose to have rainwater tanks?		Yes	No
 Have all potential overland stormwater risks been considered in the design of the development? 		Yes	No
Comments:			
Social and Economic Impacts			
Will the proposal have any economic or social consequences in the area?		Yes	No
Has the development addressed any safety, security or crime prevention issues?		Yes	No
Comments:			

Version 1.3 – October 2022

Other Relevant Matters				
(Refer to Appendix 3 of the <i>Development Application Preparation and Lodgement Guide</i> to ensure that you have considered all of the potential impacts relevant to your proposal. Please provide further details below or attaché additional pages if required.)
