Notice of Determination of Development Application

Environmental Planning and Assessment Act 1979

Notice is hereby given of the determination by Council to the following Development Application pursuant to Section 4.18(1) of the Environmental Planning & Assessment Act, 1979.

Application Number:	DA23/0150
Applicant:	BW Winnel 343 Mates Gully Rd TARCUTTA NSW 2652
Land to be Developed:	343 Mates Gully Rd TARCUTTA NSW 2652 Lot 206 DP 757255
Description	Use of existing farm building with amenities
Determination:	Approved subject to Conditions
Date of Determination:	24/05/2023
Consent to Operate from:	24/05/2023
Consent to Lapse on:	24/05/2028
Other Approvals:	Nil

On behalf of the Council

Emma Molloy
Senior Town Planner

Right of Appeal - Where an applicant is dissatisfied with this determination, the applicant has the right to appeal the decision to the Land and Environment Court within a period of 6 months from the date the decision is notified or registered on the NSW planning portal. An objector has no right of appeal against this determination.

Review of Determination - The applicant may request the Council to review the determination. A determination cannot be reviewed after the period within which an appeal may be made to the Land and Environment Court has expired or, if an appeal has been made against the determination, after the Court has disposed of that appeal.

CONDITIONS OF CONSENT FOR APPLICATION NO. DA23/0150

A. SCHEDULE A – Reasons for Conditions

The conditions of this consent have been imposed for the following reasons:

- A.1 To ensure compliance with the terms of the Environmental Planning and Assessment Act 1979 and Regulation 2000.
- A.2 Having regard to Council's duties of consideration under Section 4.15 and 4.17 of the Act.
- A.3 To ensure an appropriate level of provision of amenities and services occurs within the City and to occupants of sites.
- A.4 To improve the amenity, safety and environmental quality of the locality.
- A.5 Having regard to environmental quality, the circumstances of the case and the public interest.
- A.6 Having regard to the Wagga Wagga Development Control Plan 2010.
- A.7 To help retain and enhance streetscape quality.
- A.8 Ensure compatibility with adjoining and neighbouring land uses and built form.
- A.9 To protect public interest, the environment and existing amenity of the locality.
- A.10 To minimise health risk to neighbouring residents and workers.

B. SCHEDULE B – Deferred Commencement Conditions

N/A

C. SCHEDULE C – Conditions

Approved Plans and Documentation

- C.1 The development must be carried out in accordance with the approved plans and specifications as follows.

Plan/DocNo.	Plan/Doc Title	Prepared by	Issue	Date
	Statement of Environmental Effects	CK Design & Drafting Pty Ltd		3.04.2023
A01	Site Analysis Plan	CK Design & Drafting Pty Ltd		1.04.2023
A02	Floor Plan	CK Design & Drafting Pty Ltd		1.04.2023
A03	Elevations	CK Design & Drafting Pty Ltd		1.04.2023

The Development Application has been determined by the granting of consent subject to and as amended by the conditions of development consent specified below.

NOTE: Any modifications to the proposal shall be the subject of an application under Section 4.55 of the Environmental Planning and Assessment Act, 1979.

Requirements before a Building Information Certificate can be issued

- C.2 Prior to the issue of a Building Information Certificate, a geotechnical study must be submitted with the “Application to Install an On-Site Sewage Management System” to determine the suitability of the site with respect to the on-site disposal of waste water. An On-Site Sewage Management System Application together with the geotechnical report shall be assessed and approved by Council prior to carrying out any works on the site.

This study must be carried out by an appropriately qualified geotechnical Soil Consultant, with associated testing being conducted by a NATA registered laboratory. Matters such as geology, stratigraphy (in particular, soil profile and permeability) must be addressed.

The study must also state whether or not the proposed dwelling and the proposed waste water disposal area are located in a position and are of a design and capacity to ensure that all waste water generated from the activities carried out on site can be disposed of on the site without causing nuisance and/or pollution, both in the short and the long term.

NOTE 1: Alterations/modifications to the premise or replacement of disposal areas and or the On-site Sewage Management Systems require a geotechnical soil report to determine if the current system can manage additional loads and/or if the current disposal areas are adequately sized to effectively treat waste water generated by the activities on the premise.

NOTE 2: As a site investigation will need to be undertaken in order to determine the design of the floor slab and/or footings, it is suggested that the required geo-technical study with respect to on-site disposal of effluent be carried out at the same time. This should minimise investigation time and costs.

- C.3 Prior to the issue of a Building Information Certificate, it must be demonstrated that the On-Site Sewage Management System and its associated disposal area situated more than 40m away from drainage channels, 100m away from rivers, lakes, water body, etc and 250m away from domestic ground water wells.
- C.4 Prior to release of a Building Information Certificate, an application to install an On-Site Sewage Management System must be submitted to and approved by Council. The On-site Sewage Management System tank must be installed on the land and the premises connected thereto, in accordance with the provisions of the Local Government Act 1993 Part 1 Approvals and the Local Government (General) Regulation 2005.
- C.5 A Building Information Certificate must be obtained from Council within 3 months of the date of this consent pursuant to Division 6.7 of the Environmental Planning and Assessment Act 1979, as amended.

General requirements

- C.6 The building must not be used as a dwelling or domicile.

D. SCHEDULE D – Activity Approval Conditions (Section 68)

N/A

E. SCHEDULE E – Prescribed Conditions

Conditions under this schedule are prescribed conditions for the purposes of section 4.17 (11) of the Environmental Planning and assessment Act 1979.

E.1 Fulfilment of BASIX commitments (clause 97A EP&A Reg 2000)

The commitments listed in any relevant BASIX Certificate for this development must be fulfilled in accordance with the BASIX Certificate Report, Development Consent and the approved plans and specifications.

E.2 Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989 (clause 98 EP&A Reg 2000)

- (1) For development that involves any building work, the work must be carried out in accordance with the requirements of the Building Code of Australia.
- (2) In the case of residential building work for which the Home Building Act 1989 requires there to be a contract of insurance in force in accordance with Part 6 of that Act, such a contract of insurance shall be in force before any building work authorised to be carried out by the consent commences.
- (3) For a temporary structure that is used as an entertainment venue, the temporary structure must comply with Part B1 and NSW Part H102 of Volume One of the Building Code of Australia.

NOTE 1: This condition does not apply:

- (a) to the extent to which an exemption is in force under clause 187 or 188 of the Environmental Planning and Assessment Regulation 2000 (the Regulation), subject to the terms of any condition or requirement referred to in clause 187(6) or 188(4) of the Regulation, or
- (b) to the erection of a temporary building, other than a temporary structure to which part (3) of this condition applies.

NOTE 2: In this condition, a reference to the Building Code of Australia is a reference to that Code as in force on the date the application is made for the relevant:

- (a) development consent, in the case of a temporary structure that is an entertainment venue, or
- (b) construction certificate, in every other case.

NOTE 3: There are no relevant provisions in the Building Code of Australia in respect of temporary structures that are not entertainment venues.

E.3 Erection of signs (clause 98A EP&A Reg 2000)

For development that involves any building work, subdivision work or demolition work, a sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:

- (a) showing the name, address and telephone number of the principal certifying authority for the work, and

- (b) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
- (c) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

NOTE 1: This condition does not apply in relation to building work, subdivision work or demolition work that is carried out inside an existing building that does not affect the external walls of the building.

NOTE 2: This condition does not apply in relation to Crown building work that is certified, in accordance with section 6.28 of the Environmental Planning and Assessment Act 1979, to comply with the technical provisions of the State's building laws.

NOTE 3: Principal certifying authorities and principal contractors must also ensure that signs required by this clause are erected and maintained.

E.4 Notification of Home Building Act 1989 requirements (clause 98B EP&A Reg 2000)

Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the following information:

- (a) in the case of work for which a principal contractor is required to be appointed:
 - i) the name and licence number of the principal contractor, and
 - ii) the name of the insurer by which the work is insured under Part 6 of that Act,
- (b) in the case of work to be done by an owner-builder:
 - i) the name of the owner-builder, and
 - ii) if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under this condition becomes out of date, further work must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the updated information.

NOTE: This condition does not apply in relation to Crown building work that is certified, in accordance with section 6.28 of the Environmental Planning and Assessment Act 1979, to comply with the technical provisions of the State's building laws.

E.5 Entertainment venues (clause 98C EP&A Reg 2000)

If the development involves the use of a building as an entertainment venue, the development shall comply with the requirements set out in Schedule 3A of the Environmental Planning and Assessment regulation 2000.

E.6 Maximum capacity signage (clause 98D EP&A Reg 2000)

For the following uses of a building: a sign must be displayed in a prominent position in the building stating the maximum number of persons permitted in the building if the development consent for the use contains a condition specifying the maximum number of persons permitted in the building:

- (a) entertainment venue,
- (b) function centre,
- (c) pub,
- (d) registered club,
- (e) restaurant.

NOTE: Words and expressions used in this condition have the same meanings as they have in the Standard Instrument.

E.7 Shoring and adequacy of adjoining property (clause 98E EP&A Reg 2000)

If the development involves an excavation that extends below the level of the base of the footings of a building, structure or work (including any structure or work within a road or rail corridor) on adjoining land, the person having the benefit of the development consent must, at the person's own expense:

- (a) protect and support the building, structure or work from possible damage from the excavation, and
- (b) where necessary, underpin the building, structure or work to prevent any such damage.

NOTE: This condition does not apply if the person having the benefit of the development consent owns the adjoining land or the owner of the adjoining land has given consent in writing to that condition not applying.

F. SCHEDULE F – General Terms of Approval (Integrated Development)

N/A
