Development Control Plan

In accordance with Clause 4.4 of the EPA Act 1979, the subdivision application that created the subject lot was in part a concept application (DA19/0649 as amended) and included the preparation of a series of development controls that would be used to assess all future development applications on the site as long as they were generally consistent with the concept approval.

The Act states that *the determination of any further development application in respect of the site cannot be inconsistent with the consent for the concept proposals for the development of the site*. Based on this, the application has been assessed against the controls contained in the document titled 'Guidance Document, Concept Development Application, Proposed Residential Development, 52 Plumpton Road, Tatton (January 2023) prepared by NGH Consulting'. Part 4 of this document contains the 'Site Specific DCP Controls' that are outlined below.

Development controls	Not Relevant	Satisfactory	Comment

<u>Notification of a development application</u>	<p>The Concept Development Application (DA19/0649 was publicly exhibited by Council.</p> <p>Development that is consistent with the concept design parameters will not be notified.</p> <p>Developments within this site that do not meet the concept design parameters outlined herein, will be notified to adjoining property owners for a period of 7 days. This would be notified to immediately adjoining lots at the side and rear of the lot/s on which development is proposed.</p>	<input type="radio"/> NR	<input checked="" type="radio"/> Sat	
<u>Off-street parking</u>	<p>Parking is to be provided in accordance with below details.</p> <p>Dwelling house – 1 space/dwelling as a minimum.</p> <p>Multi dwelling housing (dual occupancy, attached dwellings, semi-detached dwellings) – 2 spaces/dwelling as a minimum.</p>	<input checked="" type="radio"/> NR	<input type="radio"/> Sat	
<u>Site area per dwelling</u>	<p>The minimum area of any lot on which development is carried out is to be</p> <ul style="list-style-type: none"> • Single dwellings, attached dwellings, dual occupancy, multi-dwelling housing - 300sqm. <p>The site area per dwelling may be distributed to provide a range of lot size and/or dwelling sizes, and to respond to site conditions and context.</p> <p>As noted above, lots may be further subdivided, provided that 300sqm is provided per dwelling pre-subdivision.</p>	<input checked="" type="radio"/> NR	<input type="radio"/> Sat	

<u>Site cover</u>	<p>The maximum site cover is to be:</p> <ul style="list-style-type: none"> • 60 percent for single dwellings, dual occupancy and attached dwellings. • 60 percent for multi-dwelling housing. • 55 percent for Lots 32-37. 	○ NR	● Sat	
<u>Solar access</u>	<p>Building design and site layout is to ensure adequate sunlight access to the internal living spaces and private open space of the proposed development. Variations can be considered where it can be demonstrated that site constraints, existing built form and good design practices limit the ability of the proposal to comply with these controls.</p> <p>For any dwellings on neighbouring land, that have north facing living areas, maintain 3 hours sunlight access to the windows of the living areas between 9am and 3pm in mid-winter (June 22). Variations can be considered where it can be demonstrated that reasonable development would cause non-compliance and the impacts are minimised as far as possible.</p> <p>Any variation referenced above should not be considered development that is inconsistent with the concept design parameters.</p>	○ NR	● Sat	

<u>Private open space</u>	<p>At least 16sqm of private open space is required per dwelling. The private open space is to be accessible to the main living area and have a minimum dimension of 3 metres.</p> <p>Roofing and enclosure of private open space is permitted, however at least one side is to remain open.</p>	<input type="radio"/> NR	<input checked="" type="radio"/> Sat	
<u>Front setback</u>	<p>Minimum front setbacks to the primary road are to be 4 metres. Minimum setbacks to the secondary road/frontage are to be 3 metres. Minimum setbacks to garages are to be 5.5 metres.</p> <p>In all instances, the garage shall not encroach on the front setback identified above.</p> <p>For Lot 32-37 the minimum front setbacks to the access road is to be 4 metres. The minimum setback to the Plumpton Road frontage is to be 10 metres. Minimum setbacks to garages are to be 5.5 metres. In all instances, the garage shall not encroach on the front setback identified above.</p>	<input checked="" type="radio"/> NR	<input type="radio"/> Sat	
<u>Side and rear setbacks and building heights</u> Objective: Building setbacks from the side and rear boundaries and building heights shall have careful regard to the impact of proposed dwellings on adjoining landowners.	Minimum setbacks to parent lot boundaries for terrace/townhouse development and multidwelling developments are to be 1.5 metres to the side and 2.5 metres to the rear.	<input checked="" type="radio"/> NR	<input type="radio"/> Sat	
	Minimum side setbacks for all single dwellings in the R1 zone are to be 0.9 metres and 2.5 metres to the rear.	<input type="radio"/> NR	<input checked="" type="radio"/> Sat	

	Minimum side setbacks to the wall are to be 2 metres for all single storey dwellings in the R5 zone.	<input checked="" type="radio"/> NR	<input type="radio"/> Sat	
	Side and rear setbacks need to be increased for additional building height (for example, for two storey buildings), or on larger R5 lots.	<input checked="" type="radio"/> NR	<input type="radio"/> Sat	
	A maximum 8.5 metre building height from finished ground level applies to all dwellings (single, multi, etc).	<input type="radio"/> NR	<input checked="" type="radio"/> Sat	
<u>Garages, carports, sheds and driveways</u>	A garage door facing a primary or secondary road is not to comprise more than 50 percent of that frontage.	<input checked="" type="radio"/> NR	<input type="radio"/> Sat	
	The floor area of an outbuilding must not exceed 8 percent of the area of the lot. The maximum height is to be 4.8 metres.	<input checked="" type="radio"/> NR	<input type="radio"/> Sat	
	An outbuilding shall not be located in front of the main building line. Variations may be considered for a balcony, deck, patio, pergola, terrace, or verandah.	<input type="radio"/> NR	<input checked="" type="radio"/> Sat	
<u>Flooding</u>	Where affected by overland flow flooding, dwellings shall be constructed 500mm above the 100-year ARI overland flow flood level.	<input checked="" type="radio"/> NR	<input type="radio"/> Sat	

<p><u>Earthworks</u></p>	<p>Excavation is not to exceed a maximum depth measured from ground level (existing) as follows:</p> <ul style="list-style-type: none"> a) If located no more than 1m from boundary – 1.5m, and b) If located more than 1m but not more than 1.5m from any boundary – 2m, and c) If located more than 1.5m from any boundary – 3m. <p>Any depths and/or setbacks outside of the above may only be considered where there is no unreasonable or unacceptable impact on the amenity of the adjoining properties (direct overlooking and loss of privacy, overshadowing to areas of principal private open space and living areas).</p> <p>Fill is not to exceed:</p> <ul style="list-style-type: none"> a) 1.5m above ground level (existing), and b) Must be contained by either: <ul style="list-style-type: none"> (i) A retaining wall or other form of structural support that does not extend more than 1.5m from the closest external wall of the dwelling house, or (ii) An unprotected sloping embankment or batter that does not extend from the dwelling house by more than 3m, in which case the toe of the embankment or batter must be more than 1m away from a side or rear boundary. <p>Variations to the above setbacks can be</p>	<div>○</div> <div>NR</div>	<div>●</div> <div>Sat</div>	
---------------------------------	---	----------------------------	-----------------------------	--

	<p>considered where the applicant can demonstrate that there is an acceptable impact on the amenity of the adjoining properties (privacy, overshadowing). Any variation referenced above should not be considered development that is inconsistent with the concept design parameters.</p> <p>Retaining walls and support for earthworks that are more than 600mm above or below ground (existing) and within 1m of the boundary or more than 1m above the ground level in another location, must take the form of a retaining wall or other form of structural support that:</p> <ul style="list-style-type: none"> (a) has been certified by a professional engineer, and (b) has adequate drainage lines connected to the existing stormwater drainage system for the site, and (c) does not result in any retaining wall or structural support with a total height measured vertically from the base of the retaining wall or structural support to its uppermost portion is: <ul style="list-style-type: none"> (i) more than 1.5m in height and within 1m from a side or rear boundary, or (ii) more than 3m in height at any other location. 			
<u>Habitable windows to front elevation</u>	All dwellings must include a minimum of one habitable window to the front elevation.	○ NR	● Sat	

<p><u>Privacy</u></p>	<p>A window in a habitable room must have a privacy screen over any part of that window that is less than 1.5m above the floor level of the room in the following cases—</p> <ul style="list-style-type: none"> (a) the floor level of the habitable room is 1m or more, but not more than 3.5m, above ground level (existing) and the window faces a side or rear boundary and is less than 3m from that boundary, (b) the floor level of the habitable room is more than 3.5m above ground level (existing) and the window faces a side or rear boundary and is less than 6m from that boundary, (c) the floor level of the habitable room is 1m or more, but not more than 3.5m, above ground level (existing) and the window faces a dwelling on the same lot and is less than 6m from that dwelling, (d) the floor level of the habitable room is more than 3.5m above ground level (existing) and the window faces a dwelling on the same lot and is less than 12m from that dwelling. <p>The above parameters do not apply to—</p> <ul style="list-style-type: none"> (a) a habitable room with a floor level not more than 1m above ground level (existing), or (b) a window that faces a road or public space, or (c) a bedroom window that has an area of not more than 2m². 	<div>○</div> <div>NR</div>	<div>●</div> <div>Sat</div>	
------------------------------	--	----------------------------	-----------------------------	--

	<p>The edge of a balcony, deck, patio, terrace, or verandah must have a privacy screen with a height of at least 1.5m above the floor level of a balcony, deck, patio, terrace or verandah in the following cases—</p> <ul style="list-style-type: none"> (a) the floor level of the balcony, deck, patio, terrace or verandah is 1m or more, but not more than 3m, above ground level (existing) and the edge faces a side or rear boundary and is less than 3m from that boundary, (b) the floor level of the balcony, deck, patio, terrace, or verandah is more than 3m above ground level (existing) and the edge faces a side or rear boundary and is less than 6m from that boundary, (c) the floor level of the balcony, deck, patio, terrace or verandah is 1m or more, but not more than 2m, above ground level (existing) and the edge faces a dwelling on the same lot and is less than 6m from that dwelling, (d) the floor level of the balcony, deck, patio, terrace, or verandah is more than 2m above ground level (existing) and the edge faces a dwelling on the same lot and is less than 12m from that dwelling. <p>The above parameters do not apply to a balcony, deck, patio, terrace, or verandah—</p> <ul style="list-style-type: none"> (a) with a floor level not more than 1m above ground level (existing), or (b) that faces a road or public space, or (c) that has an area of not more than 2m². 	<input type="radio"/> NR	<input checked="" type="radio"/> Sat
